

Key Investor Information:

this document contains key information for investors in the UCI. It is not a promotional document. The information contained herein is provided to you in accordance with a legal obligation in order to help you understand the implications of investing in this UCI and the related risks. You are advised to familiarise yourself with this document in order to make a fully-informed investment decision.

NORDEN SRI

SICAV

This UCITS is managed by LAZARD FRERES GESTION SAS

FR0000299356 - Norden

Objective and Investment Policy

Classification of the UCI: International equities

Investment objective: The investment objective is to achieve a higher return (net of charges) than the benchmark index, the MSCI Nordic Countries expressed in euros, with net interest or dividends reinvested, over a recommended investment period of five years, by applying a Socially Responsible Investment (SRI) strategy.

Investment policy: The strategy used to achieve this investment objective involves building an SRI portfolio of equities of between 35 and 60 Nordic companies, without sector restrictions.

These equities are selected by:

- a best-in-universe approach that consists in favouring the issuers with the best non-financial ratings, irrespective of their business sector;
- identifying companies with the best economic performance profiles;
- verifying that performance through financial analysis and examination of underlying strategies;
- stock-picking from among such companies according to the market's undervaluation of that performance at a given time.

The SICAV is managed in accordance with the principles of the SRI label defined by the French Ministry of the Economy and Finance. The inclusion of environmental, social and governance (ESG) criteria influences the analysis of companies held in the portfolio, stock picking and weighting.

The ESG analysis is based on a proprietary model shared by the teams in charge of financial management in the form of an internal ESG grid. Based on the various data provided by our ESG partners (non-financial analysis agencies, external service providers, etc.), annual reports and reports on the social responsibility (CSR) of each company and direct exchanges with them, the analysts responsible for monitoring each stock draw up an internal ESG rating.

This rating is based on both a quantitative (energy intensity, staff turnover rate, board independence rate, etc.) and qualitative (solidity of environmental policy, employment strategy, director competence, etc.) approach.

ESG ratings are built into the valuation models via the beta used to set the weighted average cost of capital (WACC).

The non-financial analysis covers at least 90% of the fund's investments.

The analysts-managers ensure that an exclusion rate of 20% or more of the lowest-rated securities in the fund's investment

universe is maintained (listed Nordic companies with a capitalisation of more than €250 million). For the sake of integrity and objectivity, the scores used to calculate this exclusion rate are provided to us by our partner Vigeo Eiris.

If a company held in the portfolio were to drop into the 20% lowest-rated stocks, it would have to be removed from the portfolio within three months.

At least 75% of the portfolio's net assets are invested in and/or exposed to equities at all times and, on an ancillary basis, in bonds issued by companies across all market capitalisations listed or domiciled in one of the four Nordic countries (Sweden, Norway, Denmark and Finland).

The SICAV can invest up to 10% of its net assets in French money-market or short-term money-market UCITS and/or French or foreign UCITS or AIFs that comply with the four criteria of Article R. 214-13 of the French Monetary and Financial Code (Code Monétaire et Financier) and/or in French or foreign negotiable debt securities. Investment solely in UCI that invest no more than 10% of their assets in other UCI. These UCIs may be managed by the management company.

The SICAV may also use equity and equity index futures, currency futures, equity and equity index options, equity and currency swaps and currency forward contracts, on regulated, organised and/or over-the-counter markets, up to the amount of its net assets, to hedge the portfolio against equity and currency risk.

Allocation of distributable income:

Allocation of net income: Accumulation

Allocation of net realised capital gains: Accumulation

This UCI is eligible for inclusion in French personal savings plans (PEA).

Recommended investment period: This UCI may not be suitable for investors planning to withdraw their contributions within 5 years.

Business d	Day on which NAV is set (d)	Business d+1	Business d+2
Daily order reception and daily centralisation of redemption orders before 11:00 a.m. (Paris time)	Order executed by the latest on d	Publication of the net asset value	Settlement of redemptions

Risk and reward profile

Explanation of the indicator and its main limitations:

The exposure to the equity market explains the UCI's classification in this category.

The historical data used may not provide a reliable indication of the UCI's future risk profile.

We can give no assurance that the category displayed will not change, and the classification may change over time.

The lowest category does not imply a risk-free investment. There is no capital guarantee.

Other material risk factors not incorporated into the indicator:

- **Risks associated with derivatives:** Use of complex products such as derivatives may increase losses.

The materialisation of one of these risks may result in a decline in the net asset value of the UCI. The other risks are stipulated in the prospectus.

Charges

The charges and fees paid are used to cover the UCI's operating expenses, including the costs of marketing and distributing its shares. These charges reduce the investments' potential growth.

Incidental costs collected before or after investment

Front-end load	4.00%
Back-end load	0%

The percentage indicated is the maximum percentage that may be applied to your capital before it is invested or before the proceeds of your investment are distributed. Investors may pay less in some cases. Investors may contact their advisor or distributor to find out the effective front-end and back-end load rates.

Charges collected by the UCI over a year

Ongoing charges	2.78%*
-----------------	--------

Charges collected by the UCI under certain circumstances

Performance fee	None
-----------------	------

* The figure communicated is based on the fees charged for the previous financial year ended 31/03/2020. It may vary from one year to the next. The description includes direct and indirect costs.

For more information on fees, please refer to the charges and fees section of the prospectus for this UCI, available online at www.lazardfreresgestion.fr.

Ongoing charges do not include: performance fees and brokerage fees, except in the case of upfront or exit costs paid by the UCI when buying or selling units or shares in other collective investment vehicles.

Past performance

Past performance is not a reliable indication of future performance and is not constant.

Performance is calculated less the charges collected by the UCI.

Launch date of the UCI: 02/01/1995

Base currency: EUR

Benchmark indicator:

MSCI Nordic Countries
The benchmark is expressed in EUR.
Nets dividends or coupons are reinvested.
