LAZARD SMALL CAPS EURO SRI

SICAV

This UCITS is managed by LAZARD FRERES GESTION SAS

FR0013284536 - T

Objective and Investment Policy

Classification of the UCI: Eurozone country equities

Investment objective: The investment objective is to achieve, by applying a Socially Responsible Investment (SRI) management approach, over the recommended investment horizon of 5 years, a return (net of charges) above the following benchmark: Emix Smaller Euro. The benchmark is expressed in EUR. Nets dividends or coupons are reinvested.

Investment policy: To achieve this objective, the Fund will invest in small and mid-cap Eurozone companies that achieve the best economic performance over the long-term, especially those that are undervalued in relation to that performance. Accordingly, the strategy applied within the SICAV is based on the following:

- identifying companies with the best economic performance profiles.
- verifying that performance through financial analysis and examination of underlying strategies.
- selecting stocks from such companies according to the market's undervaluation of that performance at a given time.
- building a portfolio within the Eurozone but with no other geographical or sectoral restrictions.

The minimum degree of exposure to the Eurozone equity markets is 75% of the Fund's net assets.

The Fund portfolio is made up of equities of small and mid-cap Eurozone companies.

The Fund may invest in money market instruments.

The Fund may also invest in delisted stocks (up to a maximum of 5% of the net assets).

The Fund may invest in French UCITS or AIF up to a maximum of 10% of the net assets.

These UCIs may be managed by the management company.

The Fund may use equity and equity index futures and equity and equity index options traded on regulated, organised, and/or OTC markets to hedge the portfolio and/or expose (without overexposure) it to equity risk. The Fund may hold any warrants, certificates or rights acquired following transactions involving the portfolio securities. The Fund is not intended to purchase these types of assets directly.

Allocation of distributable income:

Allocation of net income: Accumulation and/or Distribution and/or Retention

Allocation of net realised capital gains: Accumulation and/or Distribution and/or Retention

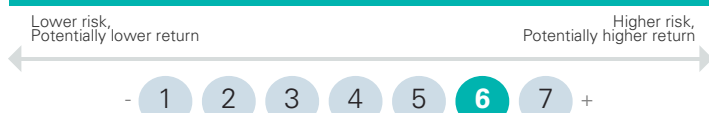

This UCI is eligible for inclusion in French personal savings plans (PEA).

Recommended investment period: This UCI may not be suitable for investors planning to withdraw their contributions within 5 years.

Risk and reward profile

Explanation of the indicator and its main limitations:

The exposure to the equity market explains the UCI's classification in this category.

The historical data used may not provide a reliable indication of the UCI's future risk profile.

We can give no assurance that the category displayed will not change, and the classification may change over time.

The lowest category does not imply a risk-free investment. There is no capital guarantee.

Other material risk factors not incorporated into the indicator:

- **Risks associated with derivatives:** Use of complex products such as derivatives may increase losses.
- **Liquidity risk:** risk associated with the low liquidity of the underlying markets, rendering them sensitive to large buy and sell movements.

The materialisation of one of these risks may result in a decline in the net asset value of the UCI. The other risks are stipulated in the prospectus.

Charges

The charges and fees paid are used to cover the UCI's operating expenses, including the costs of marketing and distributing its shares. These charges reduce the investments' potential growth.

Incidental costs collected before or after investment
