II – OPERATION AND MANAGEMENT

II.1 – General features

Share characteristics:	
- ISIN codes:	C shares: FR0000003998
	D shares: FR0010990606
	PC EUR shares: FR0013204179
	RC EUR shares: FR0013204187
	RD EUR shares : FR0013318730
	PC H-GBP shares: FR0013204195
	PC H-USD shares: FR0013204203
	RC H-USD shares: FR0013204211
	PC H-CHF shares: FR0013204229
	RC H-CHF shares: FR0013204237
- Nature of the rights attached to the SICAV's shares:	Each shareholder has an ownership right in and to the assets of the SICAV in proportion to the number of shares owned.
- Voting rights attached to the SICAV's shares:	Each shareholder is entitled to one vote for each share held.
- Form of shares:	Bearer or administered registered at the unitholder's discretion. The SICAV is listed with Euroclear France.
- Fractional or whole shares:	Subscriptions and/or redemptions may be made in thousandths of shares.
- Financial year end:	Last valuation day in September.
- Taxation	<p>The SICAV is not subject to corporate income tax. However, its shareholders are liable for taxation on dividends that the SICAV distributes and on realised capital gains or losses.</p> <p>The tax treatment of sums distributed by the SICAV or the unrealised or realised capital gains or losses of the SICAV depends on the tax rules applicable to the particular circumstances of each subscriber and/or the SICAV's investment jurisdiction. If you are unsure of the tax rules applying to your particular circumstances, you should consult a professional adviser or specialist.</p> <ul style="list-style-type: none"> ➤ For non-French residents: withholding tax is payable by the subscriber. ➤ For French residents: the SICAV is an eligible investment for an equity savings plan (Plan d'Epargne en Actions – PEA)

II.2 – Other specifications

- Classification:	EUROZONE COUNTRY EQUITIES
- Sub-investment manager:	Lazard Frères Gestion sas
- Investment objective of the C, D, PC EUR, RD EUR and RC EUR shares:	While the SICAV is not index-based, it seeks to outperform, net of expenses, the Euro Stoxx index (net dividends reinvested at the closing price) over the recommended investment period through an active policy of socially responsible investment based on financial, corporate, social environmental and governance criteria.
- Investment objective of the PC H-GBP shares:	While the SICAV is not index-based, it seeks to outperform, net of expenses, the Euro Stoxx index (net dividends reinvested at the closing price, expressed in GBP and hedged against foreign exchange risk, with the pound sterling as the base currency) over the recommended investment period, through an active policy of socially responsible investment based on financial, corporate, social, environmental and governance criteria. As PC H-GBP shares are hedged against foreign exchange risk, the share's performance may be impacted by possible hedging costs.
- Investment objective of the PC H-USD and RC H-USD shares:	While the SICAV is not index-based, it seeks to outperform, net of expenses, the Euro Stoxx index (net dividends reinvested at the closing price, expressed in USD and hedged against foreign exchange risk, with the US dollar as the base currency) over the recommended investment period, through an active policy of socially responsible investment based on financial, corporate, social, environmental and governance criteria. As PC H-USD and RC H-USD shares are hedged against foreign exchange risk, the shares' performance may be impacted by possible hedging costs.

- Investment objective of the PC H-CHF and RC H-CHF shares:	While the SICAV is not index-based, it seeks to outperform, net of expenses, the Euro Stoxx index (net dividends reinvested at the closing price, expressed in CHF and hedged against foreign exchange risk, with the Swiss franc as the base currency) over the recommended investment period, through an active policy of socially responsible investment based on financial, corporate, social, environmental and governance criteria. As PC H-CHF and RC H-CHF shares are hedged against foreign exchange risk, the shares' performance may be impacted by possible hedging costs.
- Benchmark:	The Euro Stoxx (net dividends reinvested) is an index of around 300 stocks, covering the largest listed companies in the Eurozone by market capitalisation. The performance history is available on Bloomberg under code "SXXT" and on the website www.stoxx.com .

1 – Strategies used

To support his investment policy, the manager has opted for a “best in class” positioning. This involves selecting companies that, based on his analysis, display the best relative metrics in terms of human resources management and respect for the environment, particularly within their business sector, as well as a high level of economic profitability.

For the portfolio construction and the assessment of extra-financial criteria, the management team relies in part on the services provided by analysis firm Vigeo Eiris. Additional information can also be found in the management company's transparency code, which can be consulted on the website www.lazardfreresgestion.fr.

The stock selection process consists of two distinct, simultaneous and necessary phases:

A) The non-financial rating filter:

Governance analysis is carried out internally, as we believe the management company's analysts-managers are best equipped to understand the quality of a company's governance.

Five criteria (Human Resources, Environment, Client-Supplier Relations, Human Rights and Societal Engagement) are analysed based on the management company's specific weighting for each criterion, which we believe offers the best expertise in these areas.

For a stock to be eligible for the SICAV's portfolio, the following three conditions must be met:

1. The weighted average score across all areas including human resources must be positive;
2. The “Human Resources” score must also be positive.
3. Satisfactory corporate governance, i.e. corporate governance that guarantees the fair treatment of minority interests and prevents conflicts of interest.

Note that the scores for the first two conditions are produced by an independent agency. The decision to use this external company was made because its experts appear to offer better quality in terms of ratings than an internal analysis. The weights used in the weighted score were nevertheless determined by the manager.

The various criteria and weightings used to determine a rating for each stock are as follows:

- **Human resources (40%)**

Management of the companies' human capital: training, safety, redeployment measures for staff who are made redundant, remuneration policy.

- **Environment (30%)**

Management of production sites and rehabilitation of those sites. Level of information available for this criterion.

- **Customer/supplier relationships (10%)**

Supplier management, and identification of supplier good practice in certain areas (child labour, etc.).

- **Human rights (10%)**

Prevention of human rights risks, particularly regarding discrimination.

- **Community involvement (10%)**

Integration of the company in the local community. Involvement in development in general and the development of certain activities in particular, such as supporting education in a particular area.

The rating system, provided by an independent agency and used by the manager, works as follows:

An absolute score is calculated for each company in the portfolio. This score is a weighted average reflecting the importance that the manager assigns to each area under review (Human Resources, Human Rights, Environment, Customer/Supplier Relationships and Community Relationships). The score is compared to that of other companies in the same industry.

For each area, companies will be given a score relative to their sector (between 0 and 100). A company's final rating (between -- and ++) depends on the normal distribution of the "scores" within their activity sector. Thus if a company is above the sector median (+ or - 20%), it will receive a positive rating (+), or a highly positive rating (++) if it is among the highest-scored 5% of companies. Conversely, if a company is below the sector median (+ or - 20%), it will receive a negative rating (-), or a highly negative rating (--) if it is among the lowest-scored 5% of companies.

[++]: the highest-scored 5% of companies above the sector median

[+]: 25% of companies with scores above the sector median

[=]: 40% of companies in the mid-range for the sector (+ or - 20%)

[-]: 25% of companies with scores below the sector median

[--]: the lowest-scored 5% of companies below the sector median

A score is deemed positive if it is greater than or equal to the sector median (+ or - 20%).

The selected rating agency will immediately inform the fund manager whenever a stock is downgraded. If the company rating remains positive, and the "human resources" rating is not negative, the stock is retained in the portfolio. If either of the above two conditions are not met, the stock will be withdrawn from the portfolio within 20 business days.

- **Corporate governance**

Corporate governance is a major criterion in the manager's stock selection process. His assessment must be systematic and must satisfy the management company's requirements, including that of protecting the company concerned from any internal conflict of interest. The manager identifies all factors that might impact the company's long-term strategy, its potential for value creation and the fundamental interests of minority shareholders. For this reason, the manager examines the company managers' and directors' remuneration policies in detail to ensure they do not introduce bias into decisions regarding investment, capital allocation or the day-to-day operational management of the company. Managers' remuneration should be pegged to medium- to long-term profit targets for the company; it should not be linked to criteria of size or growth without taking account of profit. The capital allocation policy should also benefit the company and its minority shareholders. It should not benefit one major shareholder only. Under no circumstances should there be any conflicts of interest between the managers, the directors, the major shareholder(s), if any, and the minority shareholders. The management company focuses in

particular (but not only) on examining managers' and directors' remuneration policies, and their defining rationale and criteria, regulated agreements, the clarity and transparency of the financial statements and the independence of the supervisory bodies. For example, opaque financial statements and/or managers' remuneration that focuses on the short term would disqualify the stock in question.

B) The financial filter:

Stock selection is based on financial analysis that focuses on three key elements: profitability, growth and valuation.

- Economic **profitability** is the ability of a company to create value over the long-term. It is measured by the return on capital employed (property, plant and equipment and intangible assets, goodwill and working capital requirement).
- **Growth** is the ability of a company to increase capital employed while maintaining a level of profitability at least equal to what it has been historically.
- We use a multi-criteria **valuation** approach (historical multiples, DCF, peer comparison): we are very demanding and disciplined concerning the valuation. We believe this approach is vital to ensure that economic performance translates into stock market performance.

The SICAV's portfolio is invested in and/or exposed to equities traded on the Eurozone markets to at least 90% of net assets.

100% of equities in the SICAV are rated by an independent agency (non-financial rating) and any other assets, such as money market assets, are not rated.

2 – Assets (excluding embedded derivatives)

Equities:

Shares of companies of any market capitalisation, whose registered office is in a Eurozone country, with no sector restrictions.

Debt securities and money market instruments:

French and foreign negotiable debt securities (mainly French treasury bills and BTAN medium-term treasury notes) to a maximum of 10% of net assets. These securities may be of any subordination level, any type and in any currency. The private/public allocation is not determined in advance and will be based on opportunities. No minimum credit quality criterion is used. The management company does not rely solely or mechanically on credit ratings issued by rating agencies but rather conducts its own analyses to assess the credit quality of the securities entering its portfolio.

UCIs:

Up to 10% of net assets in money-market UCITS and/or French or foreign short-term money-market UCITS and/or money-market alternative investment funds and/or French or EU-established short-term money-market alternative investment funds that meet the four criteria of Article R.214-13 of the French Monetary and Financial Code (Code monétaire et financier), and/or foreign money-market investment funds that meet the four criteria of Article R.214-13 of the French Monetary and Financial Code, provided such Funds themselves invest less than 10% of their assets in other UCIs. All the UCIs may be managed by Lazard Frères Gestion SAS.

3 – Derivatives

- **Types of markets:**
 - ☒ regulated
 - ☒ organised
 - ☒ OTC
- **The manager intends to seek exposure to:**
 - ☒ equities
 - ☐ interest rates
 - ☒ currencies
 - ☐ credit
 - ☐ other
- **Types of transactions – all transactions must be limited to achieving the investment objective:**
 - ☒ hedging
 - ☐ exposure
 - ☐ arbitrage
- **Type of instruments used:**
 - ☒ **futures:**
 - ☒ equity and equity indices:
 - ☐ interest rates
 - ☒ currency
 - ☒ **options:**
 - ☒ equity and equity indices:
 - ☐ interest rates
 - ☒ currency
 - ☒ **swaps:**
 - ☒ equity swaps
 - ☐ interest rate swaps
 - ☒ currency swaps
 - ☒ **currency forwards**
 - ☐ **credit derivatives**
- **Strategy of use of derivatives to achieve the investment objective:**
 - ☒ partial or general hedging of the portfolio, some risks and securities
 - ☐ creating synthetic exposure to assets and risks
 - ☐ increasing exposure to the market and fine-tuning leverage
 - ☐ maximum permitted and sought
 - ☐ other strategy

4 – Securities with embedded derivatives

None.

5 – Deposits

Up to 10% of the SICAV's assets may be held in deposits.

6 – Cash borrowings

The SICAV may borrow cash within the limit of 10% of its assets to meet specific cash requirements related to its operating needs.

7 – Temporary purchases and sales of securities

None.

8 – Information on financial guarantees

In connection with over-the-counter derivative transactions, in accordance with Position paper 2013-06 issued by the French financial markets regulator (Autorité des Marchés Financiers – AMF), the SICAV may receive collateral in the form of securities (such as bonds or other securities issued or guaranteed by a State or issued by international financing agencies and bonds or securities issued by high quality corporate issuers), or cash.

Any cash collateral received is reinvested in accordance with the applicable rules.

All such assets must be from high-quality issuers that are not an entity of the counterparty or its group, and must be liquid and diversified with low volatility.

Discounts may be applied to the collateral received; they take into account the quality of credit and the price volatility of the securities.

9 – Risk profile

Your money will be mainly invested in financial instruments selected by the management company. These instruments will be exposed to market trends and fluctuations.

▪ Risk of capital loss:

The Sicav does not provide any guarantees or capital protection. It is therefore possible that you may not recover the full amount of your initial investment.

▪ Risk associated with managing and allocating discretionary assets:

The SICAV's performance depends on both the securities and UCI that the portfolio manager chooses and on the portfolio manager's allocation of assets. There is a risk that the manager may not select the best-performing securities and UCIs or choose the optimal asset allocation between markets.

▪ Equity market risk:

Investors are exposed to equity risk. Fluctuations in share prices may have a negative impact on the SICAV's net asset value. The Fund's NAV may decrease during periods in which equity markets are falling.

In addition, the volume of small- and mid-cap stocks listed on the stock exchange is relatively small and downward market movements tend to be more pronounced and faster than for large caps. The SICAV's net asset value may therefore decline rapidly and significantly.

▪ Risk associated with investment in the futures markets:

The SICAV may invest 0% of its assets in forward financial instruments. Such exposure to markets, assets or indices through forward financial instruments may lead to falls in the NAV that are significantly more pronounced or faster than the change in the underlying assets.

▪ **Foreign exchange risk:**

The SICAV may invest in securities and UCI that are themselves permitted to purchase stocks denominated in currencies other than the euro. The value of such UCIs' assets may fall if exchange rates fluctuate, which may lead to a fall in the SICAV's NAV.

▪ **Interest rate risk (on an ancillary basis):**

Interest rate risk is the risk of a change in interest rates, which has an impact on the bond markets, such as the tendency for bond prices to move in the opposite direction to interest rates. If interest rates rise, the SICAV's net asset value may fall.

10 – Guarantee or protection

None.

11 – Eligible subscribers and typical investor profile

Any subscriber seeking exposure to equity risk. Subscribers are strongly advised to diversify their investments sufficiently to avoid exposure solely to the risks of this SICAV.

Information on US investors

The SICAV is not registered as an investment vehicle in the United States and its shares are not and will not be registered under the *Securities Act* of 1933 and, therefore, they may not be offered or sold in the United States to *Restricted Persons*, as defined hereafter.

A *Restricted Person* is (i) any person or entity located in the United States (including US residents), (ii) any corporation or any other entity subject to the laws of the United States or any state thereof, (iii) any US military personnel or any employee of a US government department or agency located outside the United States, or (iv) any other person that would be considered a US Person under Regulation S of the Securities Act of 1933, as amended.

FATCA:

Pursuant to the provisions of the Foreign Account Tax Compliance Act ("FATCA") applicable as of July 1st, 2014, if the Sicav invests directly or indirectly in US assets, the capital and income arising from such investments may be subject to withholding tax of 30%.

To avoid paying the 30% withholding tax, France and the United States have entered into an intergovernmental agreement under which non-US financial institutions ("foreign financial institutions") agree to institute procedures for identifying direct or indirect investors who qualify as US taxpayers and to provide certain information about these investors to the French tax authorities, which will disclose said information to the US tax authority, the Internal Revenue Service.

As a *foreign financial institution*, the SICAV undertakes to comply with the FATCA and to take all appropriate measures pursuant to the aforementioned intergovernmental agreement.

The amount that it is reasonable to invest in this UCI depends on each investor's personal circumstances. To determine this, investors should take account of their personal financial situation, current needs and the recommended investment period, and should also consider their ability to assume risk or whether they prefer instead to opt for a more cautious

Recommended investment period: minimum five years.

12 – Allocation of distributable income

Distributable income consists of:

- 1) net income plus retained earnings, plus or minus the balance of the revenue adjustment account; Net income for the financial year is equal to the amount of interest, arrears, dividends, bonuses and prizes, directors' fees and all income generated by the securities that make up the SICAV's portfolio, plus income generated by temporary cash holdings and minus management fees and borrowing costs.
- 2) realised capital gains, net of expenses, minus realised capital losses, net of expenses, recognised for the financial year, plus any net capital gains of the same kind recognised over previous years that have not been distributed or accumulated, plus or minus the balance of the capital gains adjustment account.

The amounts referred to in 1) and 2) may be distributed independently of each other, in whole or in part.

For C, PC EUR, RC EUR, PC H-GBP, PC H-USD, RC H-USD, PC H-CHF and RC H-CHF shares, distributable income is accumulated in full, with the exception of those amounts subject to compulsory distribution by law.

For the D and RD EUR shares, net income is distributed in full and the allocation of net realised capital gains is decided each year by the Shareholders' Meeting.

13 – Frequency of distribution

C, PC EUR, RC EUR, PC H-GBP, PC H-USD, RC H-USD, PC H-CHF and RC H-CHF shares: None.

D and RD EUR shares: The dividend is distributed once a year following the Shareholders' Meeting convened to approve the accounts of the financial year just ended. Interim dividends may be paid.

14 – Features of the shares (base currency, division of shares, etc.)

The C, D, PC EUR, RD EUR and RC EUR shares are denominated in euros.

The PC H-GBP shares are denominated in pounds sterling.

The PC H-USD and RC H-USD shares are denominated in US dollars.

The PC H-CHF and RC H-CHF shares are denominated in Swiss francs.

All shares may be divided into thousandths of a share.

15 – Terms and conditions of subscription and redemption

Subscription and redemption orders are accepted in amount and/or in shares.

Calculation of net asset value (NAV):

Date and frequency of NAV calculation

- Valuation day (D) = any day that is not a public holiday in France and on which the Paris stock exchange is open.
- NAV calculation and publication date = business day following the valuation day, i.e. (D+1).

Where/how NAV is published or made available:

NAV is notified daily online at:

www.lazardfreresgestion.fr.

and displayed in the management company's offices.

Addresses of the institutions designated to receive subscription and redemption orders :

CACEIS BANK

Bank and investment services provider accredited by the CECEI on April 1st, 2005

Registered office: 1-3 place Valhubert – 75013 Paris, France

Shareholders are reminded that orders transmitted to distributors other than the institution referred to above must take into consideration the fact that the cut-off time for the processing of orders applies to the said distributors vis-à-vis CACEIS Bank.

Consequently, such distributors may apply their own cut-off time, which may be earlier than the cut-off time indicated above, in order to take into account the time required to transmit orders to CACEIS Bank.

LAZARD FRÈRES BANQUE, on behalf of clients for whom it provides custody account-keeping services
121, Bld Haussmann – 75008 Paris, France

Processing, execution and settlement of orders:

Subscription and redemption orders processed before 11 a.m. on each NAV valuation day D will be executed on the basis of the NAV of valuation date D. This NAV is calculated on the business day following the valuation day, i.e. D+1.

Initial subscriptions may not be for less than one share.

Subscription settlement date: Two business days following the valuation date (D+2 business days).

Redemption settlement date: Two business days following the valuation date (D+2 business days).

Subscriptions preceded by a redemption received from the same shareholder on the same day for the same number of shares at the same NAV may be executed.

16 – Fees and expenses

▪ Subscription and redemption fees:

Subscription and redemption fees are respectively added to the subscription price paid by the investor or deducted from the redemption price paid. The fees earned by the SICAV are used to cover the charges that it incurs in investing or divesting the assets under management. The remaining fees are paid to the management company, the distributor, etc.

<i>Charges payable by the investor during subscription and redemption</i>	<i>Basis</i>	<i>Rate</i>
Subscription fees not retained by the SICAV	NAV x number of shares	Maximum 4 % incl. taxes
Subscription fees retained by the SICAV	n/a	None
Redemption fees not retained by the SICAV	n/a	None
Redemption fee retained by the SICAV	n/a	None

<i>Expenses charged to the SICAV</i>	<i>Basis</i>	<i>Rate</i>	
Financial management fees	Net assets	C and D shares: 1,265 % incl. taxes PC EUR shares: 0,815% incl. taxes RC EUR shares: 2 % incl. taxes RD EUR shares: 2% incl. taxes PC H-GBP shares: 0,865% incl. taxes PC H-USD shares: 0,865% incl. taxes RC H-USD shares: 2% incl. taxes PC H-CHF shares: 0,865% incl. taxes RC H-CHF shares: 2% incl. taxes Maximum rate	
Administrative fees external to the management company	Net assets	C, D, PC EUR, RC EUR, RD EUR, PC H-GBP, PC H-USD, RC H-USD, PC H-CHF, RC H-CHF shares 0,035% incl. taxes Maximum rate	
Turnover commission (0 to 100% received by the management company and 0 to 100% received by the custodian)	Maximum charge on each transaction	Equities, foreign exchange	From 0 to 0,40%
		Futures	None
Performance fees	n/a	None	

Only the contributions payable for the management of the UCI pursuant to Article L. 621-5-3 II 3° d) of the French Monetary and Financial Code and any exceptional legal costs related to debt recovery are outside the scope of the three blocks of charges referred to above.

Repurchase agreements are executed at market prices.

With the exception of brokerage fees, accounting management costs and custodians fees, all of the charges referred to above are levied as part of the joint venture arrangement between Lazard Frères Banque and Lazard Frères Gestion SAS which since 1995 has enabled them to pool their financial control, administration, and portfolio execution resources.

All revenue resulting from efficient portfolio management techniques, net of direct and indirect operating costs, is returned to the SICAV. All costs and fees relating to these management techniques are borne by the SICAV.

17 – Outline of the intermediary selection procedure

The selection of intermediaries used in equity fund management is a result of:

- requests from managers to add new brokers
- a financial analysis of the broker's accounts, carried out externally.

These intermediaries are used exclusively in terms of inflows relating to equities. Lazard Frères Gestion SAS' Broker Committee ratifies all decisions to authorise new intermediaries.

At least twice yearly, the equity investment team holds a Broker Committee meeting to evaluate the services of its intermediaries, by reviewing four key criteria:

- research
- services offered
- la quality of execution
- level of commissions

III - SALES AND MARKETING INFORMATION

Publication of information about the SICAV:	Lazard Frères Gestion sas 25, Rue de Courcelles – 75008 Paris, France Customer Relations ☎ +33 (0)1 44 13 01 79
--	--

Availability of commercial documentation on the SICAV:

The commercial documentation related to the SICAV shall be made available to the shareholders at the registered office of Lazard Frères Gestion SAS, 25, rue de Courcelles, 75008 Paris.

Information regarding environmental, social and corporate governance (ESG) issues is available on the management company's website (www.lazardfreresgestion.fr) and will be included in the SICAV's annual report.

The management company may send, directly or indirectly, information on the composition of the Fund's assets to the Fund's shareholders for purposes related solely to shareholders' regulatory obligations. This information will be sent, where applicable, within a period not less than 48 hours after publication of the NAV.

Information in the event of a change in the operation of the SICAV:

The shareholders shall be informed of any changes in the operation of the SICAV in the press or by any other means in accordance with the prevailing regulations. This information may, where relevant, be provided through Euroclear France financial intermediaries affiliated with it.

Information about the use of investment decision-making support and order execution services (SADIE) can be found on the management company's website (www.lazardfreresgestion.fr).

IV – INVESTMENT RULES

The SICAV's investment rules are laid down in the regulatory section of the French Monetary and Financial Code (*Code Monétaire et Financier*).

V – AGGREGATE RISK

The SICAV's aggregate risk is calculated using the commitment method.

VI – ASSET VALUATION AND ACCOUNTING RULES

1 – Asset valuation rules

➤ **Financial instruments and securities traded on a regulated market are valued at their market price.**

- **Shares and similar securities** are valued on the basis of the last known price on their main market.

If applicable, prices are translated into euros using the exchange rate prevailing in Paris on the valuation day (as published by WM Closing).

- **Fixed-income securities**

Fixed-income securities are for the most part marked to market based on either Bloomberg prices (BGN)[®] derived from averages of contributed prices, or on those of direct contributors. There may be a discrepancy between the carrying amounts, valued as indicated above, and the actual disposal prices that would be obtained if a portion of these portfolio assets were to be sold.

- **Bonds and similar instruments** are valued on the basis of the average of the closing prices gathered from several contributors.

Financial instruments whose prices have not been determined on the valuation date or whose prices have been adjusted are valued at their probable trading price under the responsibility of the SICAV's board of directors.

These estimates and their supporting documentation will be provided to the statutory auditor during audits.

However, the following instruments are valued using the following specific methods:

- **Negotiable debt securities:**
 - **Negotiable debt securities with a residual maturity of more than three months:**

Negotiable debt securities traded in large volumes are valued at market price. In the absence of significant trading volumes, these securities are valued using an actuarial method, with a benchmark rate plus, where applicable, a margin representative of the issuer's intrinsic features.

Benchmark rate	
Negotiable debt securities in euros	Negotiable debt securities in other currencies
Euribor, OISs and BTFs - 3 – 6 – 9 – 12 months BTANs - 18 months, 2 – 3 – 4 – 5 years	Official key rates in the relevant countries

- **Negotiable debt securities with a residual maturity of three months or less:**

Negotiable debt securities with a residual maturity of three months or less are valued using the straight-line method. However, this method would not be applied if any of these securities were particularly sensitive to market movements.

- **UCIs:**
 - Units or shares of UCIs are valued at the last known NAV.
 - Units or shares of UCIs for which NAVs are published monthly may be valued on the basis of interim NAVs calculated from estimated prices.
- **Temporary purchases and sales of securities**
 - Securities purchased under repurchase agreements are valued at their contract price using an actuarial method with a benchmark rate (overnight Eonia, one- or two-week interbank rates, one- to 12-month Euribor) corresponding to the term of the contract.
 - Securities sold under repurchase agreements continue to be valued at their market price. Liabilities on securities sold under repurchase agreements are calculated using the same method as that used for securities purchased under repurchase agreements.
- **Futures and options**
 - Futures and options are valued on the basis of intraday trading prices the timing of which is based on that of the valuation of the underlying assets.

Positions taken on the futures or options markets and over the counter are valued at their market price or at the value of the equivalent underlying asset.

➤ **Financial instruments and securities not traded on a regulated market**

All of the SICAV's securities are traded on regulated markets.

➤ **Valuation methods for off-balance sheet commitments**

Off-balance sheet transactions are valued at the commitment value.

The commitment value for futures contracts is equal to the price (in the SICAV's currency) multiplied by the number of contracts multiplied by the face value.

The commitment value for options is equal to the price of the underlying security (in the SICAV's currency) multiplied by the number of contracts multiplied by the delta multiplied by the face value of the underlying security.

The commitment value for swaps is equal to the face value of the contract (in the SICAV's currency).

2 – Accounting policies

- **Income from fixed-income securities**
 - Income from fixed-income securities is recorded on the basis of accrued interest.
- **Management fees**
 - Management fees are calculated at a flat rate on each valuation date.
 - The annual management fee rate is applied to gross assets (equal to net assets before deduction of the day's management fees) using the following formula:

$$\begin{array}{l}
 \text{(Gross assets)} \\
 \times \quad \text{operating and management fees rate} \\
 \times \quad \text{no. of days between the calculated NAV and the previous NAV} \\
 \hline
 \text{365 (or 366 in a leap year)}
 \end{array}$$

- This amount is then recorded in the SICAV's income statement.
- The SICAV pays the operating fees, which include:
 - . financial management;
 - . administration and accounting;
 - . custody services;
 - . other operating fees:
 - . statutory auditors' fees;
 - . legal notices (Balo, Petites Affiches, etc.) if applicable.

These fees do not include transaction charges.

- **Transaction charges**

Transactions are recorded excluding charges.

- **Retrocessions received on management fees or entry charges**

The method used to calculate retrocession amounts is set out in the sales and marketing agreements.

- If the amount is significant, a provision is recognised in account 617.
- The final amount is recognised upon settlement of invoices after reversal of any provisions.

ARTICLES OF ASSOCIATION OF

“LAZARD EQUITY SRI”

*Registered office: 121, Boulevard Haussmann, 75008 - Paris,
France*

Paris Trade and Companies Register 438 703 050

TITLE I

FORM – OBJECT – NAME – REGISTERED OFFICES – TERM OF THE COMPANY

Article 1

FORM

A SICAV (open-ended investment company) shall be formed among the holders of shares created hereinafter and shares to be subsequently created. The SICAV shall be governed notably by the provisions of the French Commercial Code concerning limited companies (*sociétés anonymes*) (Book II – Title II – Chapter V), the French Monetary and Financial Code (Book II – Title I – Chapter IV – section I – sub-section I), their implementing texts, subsequent texts and by these articles of association.

Article 2

OBJECT

The object of this company is to set up and manage financial instruments and deposits.

Article 3

NAME

The company's name is: “LAZARD EQUITY SRI” followed by the notation “Société d'investissement à Capital Variable”, with or without the term “SICAV”.

Article 4

REGISTERED OFFICE

The registered office is established at 121, Boulevard Haussmann, 75008 Paris, France.

Article 5

TERM

The company's term is 99 years, commencing from its registration with the Trade and Companies Register, except in the event that the Sicav is dissolved before the end of the term or extended pursuant to these regulations.

TITLE II

CAPITAL – CHANGES IN CAPITAL – FEATURES OF THE SHARES

Article 6

SHARE CAPITAL

The initial capital totals EUR 32 793 000 (the equivalent of FRF 215 107 979,01) divided into 32 793 shares of EUR 1 000, fully paid up and of the same category.

It was created from cash payments.

The shares may be combined or split upon the decision of the Extraordinary Shareholders' Meeting.

The shares may be sub-divided upon the decision of the board of directors into tenths, hundredths, thousandths or ten-thousandths, referred to as fractional shares.

Share classes:

The features of the different share classes and their eligibility requirements are set out in the SICAV's prospectus.

The different share classes may:

- apply different dividend policies (distribution or accumulation);
- be denominated in different currencies;
- be subject to different management fees;
- be subject to different subscription and redemption fees;
- have a different par value.

The provisions hereof governing the issue and redemption of shares shall apply to fractional shares, the value of which shall always be proportional to the value of the share they represent. Unless otherwise stipulated, all other provisions of the articles of association relating to shares shall automatically apply to fractional shares.

Article 7

Changes in capital

The amount of capital may be changed as a result of the issue of new shares by the company and reductions following the redemption of shares by the company for shareholders who so request.

Article 8

ISSUE AND REDEMPTION OF SHARES

Shares may be issued at any time at the request of shareholders on the basis of the net asset value plus subscription fees, if any.

Redemptions and subscriptions shall be made under the conditions and in accordance with the procedures set out in the prospectus.

Redemptions may be made in cash and/or in kind. If the redemption in kind corresponds to a representative share of the assets in the portfolio, only the outgoing shareholder's written and signed agreement must be obtained by the UCI or management company. If the redemption in kind does not correspond to a representative share of the assets in the portfolio, all of the shareholders must provide their written signed agreement authorising the outgoing shareholder to obtain redemption of their shares against certain specific assets, as explicitly defined in the agreement.

As an exception to the foregoing, in cases where the UCI is an ETF, redemptions on the primary market may, if the portfolio management company agrees and provided that the interests of the shareholders are upheld, be made in kind under the conditions set out in the UCI's prospectus. The assets are then delivered by the issuer account keeper under the conditions set out in the UCI's prospectus.

Generally speaking, the redeemed assets are valued according to the rules set out in Article 9, and redemption in kind is based on the first net asset value following acceptance of the instruments in question.

All subscriptions to new shares must, under pain of being declared void, be fully paid up and the shares issued shall have the same dividend date as that of the existing shares on the issuance date.

Pursuant to Article L. 214-7-4 of the French Monetary and Financial Code, redemption by the company of its shares, and the issue of new shares, may be temporarily suspended by the board of directors in exceptional circumstances and if required in the interests of shareholders.

No shares may be redeemed if the net assets of the SICAV are less than the regulatory amount.

Pursuant to Article L. 214-7-4 of the French Monetary and Financial Code and Article 411-20-1 of the General Regulation of the French financial markets regulator (Autorité des Marchés Financiers - AMF), the management company may decide to put a cap on

redemptions if warranted by exceptional circumstances and in the interest of the shareholders and the general public.

The method used for this capping mechanism and the measures for informing the shareholders must be described in detail.

Minimum subscription conditions may apply, as set out in the prospectus.

The UCI may cease to issue shares on a temporary or permanent basis, in part or in full, pursuant to the provisions set out in the third paragraph of Article L. 214-7-4 of the French Monetary and Financial Code, in objective situations that warrant the closure of subscription such as cases where the maximum number of issued shares has been reached, the maximum amount of assets has been reached, or the subscription period has expired. If such partial or full closure is activated, the existing shareholders must be informed by all available means, including details of the threshold and objective situation that triggered the decision. In the case of partial closure, the existing shareholders must also be informed in detail of the methods by which they can continue to subscribe during this partial closure period. The shareholders must also be informed by all available means if the UCI or management company decide to discontinue the full or partial subscription closure period (when the activation threshold is no longer exceeded) or continue the closure period (change in the threshold or the objective situation that warranted implementation of the measure). Any change in the specified objective situation or in the activation threshold must always be in the interest of the shareholders. The existing shareholders must be informed by all means of the exact reasons for such changes.

Article 9 **CALCULATION OF NET ASSET VALUE**

The net asset value of the shares is calculated according to the valuation rules set out in the prospectus.

Further, if the shares are listed for trading, the exchange operator will calculate an instant indicative net asset value.

Contributions in kind may consist only of securities, stocks or contracts that are eligible to form the assets of UCITS; they are valued according to the valuation rules used to calculate the net asset value.

Article 10 **FORM OF THE SHARES**

The shares may have the form of bearer or registered shares, as selected by the subscriber.

Pursuant to Article L. 211-4 of the French Monetary and Financial Code, the securities must be registered in accounts kept by the issuer or an authorised intermediary, as the case may be.

Holders' rights will be represented by an entry in an account their name:

- with the intermediary of their choice for bearer securities;
- with the issuer and, if they so wish, with the intermediary of their choice for registered securities.

The company may, at its own expense, request the name, nationality and address of the SICAV's shareholders, as well as the number of securities held by each of them, in accordance with Article L. 211-5 of the French Monetary and Financial Code.

Article 11 **ADMISSION FOR TRADING ON A REGULATED MARKET**

The shares may be admitted to trading in a regulated market and/or a multilateral trading system, depending on the applicable regulations. If the SICAV whose shares are admitted to trading in a regulated market has an investment objective based on an index, it must have set up a system to ensure that the price of its share does not deviate significantly from its net asset value.

Article 12 **RIGHTS AND OBLIGATIONS ATTACHED TO THE SHARES**

Each share confers the right, in proportion to the fraction of the share capital represented, to a share in the ownership of the company's assets and of the company's profits.

The rights and duties attached to a share shall be transferred to any owner thereof.

Whenever the exercise of a right is conditional upon a certain number of shares being held and specifically in the case of a swap or consolidation of shares, holders of individual shares or of less than the required number of shares may only exercise such rights if they personally undertake to consolidate their holdings and, if applicable, to buy or sell the necessary quantity of shares.

Article 13 **INDIVISIBILITY OF SHARES**

All co-owners of shares or assignees are required to be represented with the company by a single person named by mutual agreement or, failing such agreement, appointed by the Chief Judge of the Commercial Court with jurisdiction for the registered offices.

Holders of fractional shares may consolidate their holdings. In this case, they must be represented as set out above, by a single person who shall perform, for each group, all of the rights attached to the ownership of the entire share.

In cases where beneficial ownership and bare ownership are separated, the division of voting rights at shareholders' meetings between the beneficial owner and the bare owner is left to the discretion of the parties concerned, who should inform the company accordingly.

TITLE III

Administration and management of the company

Article 14 **Administration**

The company is administered by a board of directors with at least three and no more than 18 members, appointed by the shareholders' meeting.

During the life of the company, the directors shall be appointed or re-appointed by the ordinary shareholders' meeting.

The directors of the company may be natural persons or legal entities. In the case of a legal entity, on appointment, they must designate a permanent representative who is subject to the same conditions and obligations and bears the same civil and criminal liability as if they themselves were a member of the board of directors, without prejudice to the liability of the legal entity they represent.

This permanent mandate is given for the duration of the legal entity's own mandate. If the legal entity terminates the appointment of its representative, it must notify the SICAV immediately by registered mail and also inform the SICAV of the identity of its new permanent representative. The same shall apply in the event of the death, resignation or extended impediment of the permanent representative.

The age limit for members of the board of directors is set at 80. Nevertheless, directors older than this age limit may in exceptional cases have their mandate renewed for a period of six years; no more than three directors may be renewed under these conditions.

Article 15 **TERM OF OFFICE OF DIRECTORS - REPLACEMENT OF THE BOARD**

Subject to the provisions of the final paragraph of this article, the directors' term of office is three years for initial directors and up to six years for subsequent directors, with each year being understood as the period between two consecutive annual shareholders' meetings.

If one or more directors' seats become vacant between two shareholders' meetings as a result of death or resignation, the board of directors may make interim appointments.

A director appointed by the board on an interim basis to replace another shall remain in office only for the remaining term of office of his predecessor. This appointment shall be subject to ratification at the next shareholders' meeting.

All directors shall be eligible for re-election. They may be dismissed at any time by the ordinary shareholders' meeting.

Each director's term of office shall expire at the close of the ordinary shareholders' meeting called to approve the financial statements for the past financial year and held in the year during which the director's term of office expires, it being understood that, if the meeting is not held in that year, the term of office of the director concerned shall expire on December 31st of the same year, subject to the exceptions hereafter.

All directors may be appointed for a term of less than six years where necessary to ensure that changes are made as regularly as possible and that all members have changed by the end of each six-year period. This is notably the case if the number of directors is increased or decreased and the renewal frequency has been affected.

Where the number of members of the board of directors falls below the legal minimum, the remaining member or members must immediately call an ordinary shareholders' meeting in order to fill the vacant seats on the board.

In the event of the resignation or death of a director, and where the number of directors still in office is equal to or greater than the statutory minimum, the board may appoint a temporary replacement for the remaining term of office. The board of directors may be renewed by rotation.

Article 16 Bureau of the board

The board shall elect a chairman from among its members for a term determined by it, but which may not exceed the chairman's term of office as a director. The chairman must be an individual.

The chairman of the board of directors represents the board of directors and shall organise and direct the board's activities, and report on these to the shareholders' meeting. The chairman shall oversee the smooth operation of the company's management bodies and in particular shall ensure that the directors are capable of fulfilling their duties.

If he considers it appropriate, he shall also appoint a vice- chairman and may also choose a secretary, who need not be member of the board.

In the event of the temporary incapacity or death of the chairman, the board of directors may agree to delegate the chairman's functions to a director.

Article 17 Board meetings and resolutions

The board of directors shall meet when convened by the chairman, as often as the company's interests require, either at the registered offices or at any other location indicated in the notice of meeting.

Whenever the board has not met for more than two months, at least one-third of its members may ask the chairman to convene a meeting based on a specific agenda. The chief executive officer may also ask the chairman to convene a board of directors' meeting to deal with a specific agenda. The chairman is bound by such a request.

Company bylaws may determine, in accordance with legal and regulatory provisions, the conditions for organising meetings of the board of directors, which except when held for

the adoption of resolutions that are expressly excluded from this option under the French Commercial Code, may take place via video-conference.

Invitations may be sent to the directors by post or verbally.

A quorum of at least half the members is required in order for decisions to be valid. Decisions are adopted by a majority vote of members present or represented. Each director holds one vote. In the case of a split-vote, the chairman has the casting vote.

Where video-conferencing is permitted, the company's bylaws may stipulate, in accordance with the regulations in force, that directors participating in a board of directors' meeting via video-conference are deemed present for the purpose of quorum and majority calculations.

Article 18 Minutes-

Minutes are written up and copies or excerpts of decisions are issued and certified as required by law.

Article 19 Powers of the board of directors

The board of directors steers the company's activity and oversees correct execution. Within the limits of the corporate object and subject to the powers expressly granted by law to shareholders' meetings, the board shall consider any issue that affects the proper operation of the company and settle any matters concerning the company through its decisions.

The board of directors shall carry out such controls and audits that it considers appropriate. The chairman or the chief executive officer is required to provide each director with all documents and information needed to perform his or her duties.

A director may authorise another director to represent him at a meeting of the board of directors.

Each director shall have only one such power of attorney during a single session.

The provisions set out above shall apply to permanent representatives of directors who are legal entities.

Article 20 EXECUTIVE MANAGEMENT – NON-VOTING BOARD MEMBERS

The executive management of the company shall be the responsibility of the chairman of the board of directors or of another natural person appointed by the board of directors and holding the title of chief executive officer.

The choice of these two methods shall be made in accordance with the terms of these articles of association by the board of directors for a term that shall run until the expiry of the functions of the current chairman of the board of directors. Shareholders and third parties shall be informed of this choice under the conditions defined by the applicable legislative and regulatory provisions.

Based on the board of directors' choice as stipulated above, the company will be managed by either the chairman or a chief executive officer.

When the board of directors decides to separate the functions of chairman and chief executive officer, it shall appoint a chief executive officer and shall decide on his/her term of office.

If the chairman of the board of directors assumes responsibility for the executive management of the company, the following provisions regarding the chief executive officer shall apply.

Subject to the powers expressly attributed by law to shareholders' meetings as well as those specifically reserved by law to the board of directors, and within the limits of the corporate purpose, the chief executive officer is vested with the broadest powers to act in all circumstances on behalf of the company. He shall exercise these powers within the limits of the corporate object and subject to the powers expressly attributed by law to shareholders' meetings and the board of directors. He shall represent the company in its dealings with third parties.

The chief executive officer may authorise any partial delegation of his powers to any person of his choice.

The chief executive officer may have his/her appointment revoked at any time by the board of directors.

At the request of the chief executive officer, the board of directors may appoint up to five deputy chief executive officers to assist the chief executive officer.

Deputy chief executive officers may be removed from office at any time by the board upon the recommendation of the chief executive officer.

In agreement with the chief executive officer, the board of directors shall determine the scope and duration of the powers delegated to deputy chief executive officers.

Such powers may include a right of partial delegation. If the chief executive officer resigns or is dismissed or is unable to perform his duties, the deputies shall retain their powers and positions, unless the board decides otherwise, until the appointment of a new chief executive officer.

Deputy chief executive officers shall have the same powers vis-à-vis third parties as the chief executive officer.

The age limit of the chief executive officer and deputy chief executive officers is set at 65.

The shareholders' meeting may appoint one or more non-voting board members.

The term of office for non-voting board members shall be a maximum of six years. It shall expire at the close of the ordinary shareholders' meeting called to approve the financial statements for the past financial year and held in the year during which the non-voting board members' term of office expires.

Non-voting board members may be re-elected at any time without limitation; they may be removed from office at any time upon the decision of the shareholders' meeting.

In the event of the death or resignation of one or more non-voting board members, the board of directors may co-opt their successor(s), this provisional appointment being subject to ratification at the next shareholders' meeting.

Non-voting board members are responsible for ensuring the strict enforcement of the articles of association. They attend the board of directors meetings and hold a consultative role. They examine statements of assets and liabilities and the annual financial statements and offer their comments on these matters to the shareholders' meetings when they consider it appropriate to do so. Remuneration of non-voting board members is decided upon by the board.

Article 21 Board allocations and remuneration

Directors may be allocated an annual lump sum for attendance at board meetings, the amount of which shall be determined by the ordinary shareholders' meeting. This amount, which shall be charged to overheads, shall remain unchanged until further decision.

The board shall divide this remuneration among its members as it sees fit.

The chairman's and the chief and deputy chief executive officer(s)' remuneration shall be set by the board of directors. Remuneration may be fixed or both fixed and variable.

The board of directors may also allocate special payments for tasks and duties assigned to directors; any such payments will be charged to operating expenses and subject to the approval of the ordinary shareholders' meeting.

No other permanent or other type of remuneration may be allocated to the directors unless they hold an employment contract with the company under the conditions set out by law.

Article 22 CUSTODIAN

The custodian is appointed by the board of directors.

The custodian performs the tasks for which it is responsible under applicable laws and regulations as well as those assigned to it contractually by the SICAV or the management company. In particular, the custodian must ensure that the decisions of the management company are lawful. It shall take any protective measures it considers appropriate. In the event of a dispute with the management company, it shall inform the AMF.

Article 23 THE PROSPECTUS

The board of directors or, where the SICAV has delegated full responsibility for management, the portfolio management company, has all necessary powers to make, as needed, any amendments to ensure the proper management of the company, pursuant to the legislative and regulatory provisions specific to SICAVs.

TITLE IV

STATUTORY AUDITORS

Article 24 APPOINTMENT - POWERS - REMUNERATION

The statutory auditor is appointed by the board of directors for a term of six financial years, following AMF approval, from among persons authorised to perform such duties in commercial companies.

The statutory auditor shall certify that the financial statements are accurate and in order. The statutory auditor's term may be renewed.

The statutory auditor has a duty to report promptly to the AMF any fact or decision concerning the Fund of which he has become aware in the course of his duties and which is liable to:

- 1° Constitute a breach of the laws or regulations that apply to that fund and that is likely to have significant effects on its financial situation, profits or assets;
- 2° Affect the conditions or the continuity of its operations;
- 3° Lead to the expression of reservations or the refusal to certify the accounts.

The statutory auditor shall oversee the valuation of assets and the calculation of exchange ratios used in the event of a conversion, merger or split.

The statutory auditor shall assess any contribution in kind under his own responsibility.

He shall verify the accuracy of the composition of assets and other information prior to publication.

The statutory auditor's fees shall be set by mutual agreement between the statutory auditor and the SICAV's board of directors, on the basis of a work schedule setting out the procedures deemed necessary.

The statutory auditor shall certify the positions used as the basis for the distribution of interim dividends.

TITLE V

SHAREHOLDERS' MEETINGS

Article 25 Shareholders' meetings

Shareholders' meetings shall be convened and shall deliberate under the conditions provided for by law.

The annual shareholders' meeting, which must approve the company's financial statements, must be held within four months of the close of the financial year.

Meetings shall be held either at the registered offices or at any other location specified in the notice of meeting.

Each shareholder may participate in the Shareholders' Meetings, either in a personal capacity or by appointing another person as proxy, subject to proof of identity and share ownership either in the form of registration in the registered share accounts held by the Company or of registration in the bearer securities registry, at the places specified in the notice of meeting; these formalities must be completed two [business] days before the meeting date. A shareholder may be represented at a meeting in accordance with Article L. 225-106 of the French Commercial Code.

A shareholder may also vote by correspondence under the conditions set out in the regulations in force.

Shareholders' meetings shall be chaired by the chairman of the board of directors or, in his absence, by a vice-chairman or a director appointed by the board for that purpose. Failing this, the shareholders' meeting shall elect the chairman itself.

Minutes of meetings shall be written up and copies certified and issued as required by law.

TITLE VI

ANNUAL FINANCIAL STATEMENTS

Article 26 FINANCIAL YEAR

The company's financial year begins on the day after the last trading day in Paris in September and ends on the last trading day in Paris in the same month of the following year.

However, by way of exception, the first financial year shall include all operations carried out from the inception date until September 30th, 2002.

Article 27 ALLOCATION OF DISTRIBUTABLE INCOME

Distributable income consists of:

1) net income plus retained earnings, plus or minus the balance of the revenue adjustment account.

Net income for the financial year is equal to the amount of interest, arrears, dividends, bonuses and prizes, directors' fees and all income generated by the securities that make up

the SICAV's portfolio, plus income generated by temporary cash holdings and minus management fees and borrowing costs.

2) realised capital gains, net of expenses, minus realised capital losses, net of expenses, recognised for the financial year, plus any net capital gains of the same kind recognised over previous years that have not been distributed or accumulated, plus or minus the balance of the capital gains adjustment account.

The amounts referred to in 1) and 2) may be distributed independently of each other, in whole or in part.

Details of the relevant process are provided in the prospectus under the section entitled "Allocation of distributable income".

TITLE VII

EXTENSION - DISSOLUTION - LIQUIDATION

Article 28 EXTENSION OR EARLY DISSOLUTION

The board of directors may, at any time and for any reason, recommend the extension, early dissolution or liquidation of the SICAV to an extraordinary shareholders' meeting.

This issue of new shares and the redemption by the SICAV of shares for shareholders who so request shall cease on the date of publication of the notice of the shareholders' meeting at which a resolution for the early dissolution or liquidation of the company is considered, or at the end of the company's term.

Article 29 LIQUIDATION

Liquidation procedures are established in accordance with Article L. 214-12 of the French Monetary and Financial Code.

At the end of the term set by the articles of association or in the case of a resolution for early dissolution, the shareholders' meeting shall decide, on the recommendation of the board of directors, the method of liquidation and shall appoint one or more liquidators. The liquidator shall represent the company. The liquidator is authorised to pay the creditors and divide out the available balance. The appointment of the liquidator shall terminate the powers held by the directors, but not those held by the statutory auditor.

The liquidator may, pursuant to a resolution of the extraordinary shareholders' meeting, contribute all or part of the assets, rights and obligations of the dissolved company to another company, or transfer such assets, rights and obligations to a company or to any other person.

The net proceeds from the liquidation, after settlement of liabilities, shall be distributed in cash or securities among the shareholders.

During the liquidation process, the duly constituted shareholders' meeting shall retain the same authority as during the life of the company, including in particular the power to approve the liquidation accounts and discharge the liquidator.

TITRE VIII

DISPUTES

Article 30 JURISDICTION - ADDRESS FOR SERVICE

Any disputes that may arise during the company's operations or at the time of its liquidation, either between shareholders and the company or among the shareholders themselves, concerning the business of the company, shall be judged in accordance with the law and submitted to the courts with jurisdiction over the registered office.
