III - OPERATION AND MANAGEMENT

GENERAL FEATURES

1. Features

Units characteristics	
ISIN code Unit RC EUR	FR0013444072
ISIN code Unit RD EUR	FR0013444080
ISIN code Unit RC H-CHF	FR0013444064
ISIN code Unit PC EUR	FR0010505313
ISIN code Unit PD EUR	FR0010597138

ISIN code Unit PC H-CHF	FR0013444056
Rights attached to the Fund's units	Each unitholder has an ownership right in the Fund's assets in proportion to the number of units owned.
Voting rights	No voting rights are attached to the Fund's units since decisions are taken by the management company.
Form of the units	Bearer or administered registered at the unitholder's discretion. The Fund is listed with Euroclear France.
Fractional or whole units	The Fund's units may be subscribed for and/or redeemed in whole number only (see details in section 14. Features of the units).
Financial year end	Last valuation date in September.
First financial year end	Last valuation date in September 2008.
Taxation	The tax treatment of the Fund's unrealised or realised capital gains or losses depends on the tax rules applicable to the particular circumstances of each investor and/or the Fund's investment jurisdiction. If you are unsure of the tax rules applying to your particular circumstances, you should consult a professional adviser.

OTHER SPECIFICATIONS

Investment objective	Unit RC EUR, Unit RD EUR, Unit PC EUR, Unit PD EUR	The investment objective is to achieve over the recommended investment horizon of 3 years a return (net of charges) above the following benchmark: ICE BofAML Euro BB-B Euro High Yield non Financial fixed & Floating rate constrained Index. The benchmark is expressed in EUR. Nets dividends or coupons are reinvested.
	Unit RC H-CHF, Unit PC H-CHF	The investment objective is to achieve over the recommended investment horizon of 3 years a return (net of charges) above the following benchmark: ICE BofAML Euro BB-B Euro High Yield non Financial fixed & Floating rate constrained Hedged CHF Index. The benchmark is expressed in CHF. Nets dividends or coupons are reinvested.
	Unit RC EUR, Unit RD EUR, Unit PC EUR, Unit PD EUR	ICE BofAML Euro BB-B Euro High Yield non Financial fixed & Floating rate constrained Index The ICE BofAML Euro BB-B Euro High Yield non Financial fixed & Floating rate constrained Index index represents a section of the European high yield investment universe. All issues included in this index are rated speculative grade, i.e., between BB+ and B- for Standard & Poor's and between Ba1 and B3 for Moody's. Data is available on the website: www.indices.theice.com Bloomberg code: HEAG Index

Benchmark	Unit RC H-CHF, Unit PC H-CHF	<p>ICE BofAML Euro BB-B Euro High Yield non Financial fixed & Floating rate constrained Hedged CHF Index</p> <p>The ICE BofAML Euro BB-B Euro High Yield non Financial fixed & Floating rate constrained Hedged CHF Index index, an index hedged against foreign exchange risk with the CHF as its base currency, represents a section of the European high yield investment universe. All issues included in this index are rated speculative grade, i.e., between BB+ and B- for Standard & Poor's and between Ba1 and B3 for Moody's.</p> <p>Data is available on the website: www.indices.theice.com</p> <p>Bloomberg code: HEAG Index</p>
-----------	---------------------------------------	--

As at the date of this prospectus, the benchmark index administrator, namely [ICE Benchmark Administration Limited], is listed on ESMA's register of administrators and benchmark indices.

Additional information on the benchmark index can be found on the administrator's website at [<https://www.theice.com/iba>]

The management company will ensure that this link is still valid in future updates of the UCI's prospectus.

1. Strategies used

The Fund aims to outperform, net of expenses, the:

- ICE BofAML BB-B Euro High Yield Non-Financial Fixed & Floating Rate Constrained Index, expressed in euros, for the PC EUR, PD EUR, RC EUR and RD EUR units;
 - ICE BofAML BB-B Euro High Yield Non-Financial Fixed & Floating Rate Constrained Index, expressed in Swiss francs and fully hedged, for the PC H-CHF and RC H-CHF units;
- through dynamic management of interest rate risk, credit risk and the risk of fluctuation in the underlying assets of debt index-linked to one or more equities. Investment will essentially be in risky debt issued by governments, companies, financial institutions and financial structures that offer a higher return than risk-free debt.

The portfolio manager conducts his own credit assessment for selection purposes, both at the time of purchase and during the life of the securities. He does not rely solely on ratings issued by rating agencies and develops credit risk analysis and the necessary procedures to make purchase decisions or buy or hold decisions in the event of a downgrade. Nor does he automatically use agency ratings but gives precedence to his own analysis to assess the credit quality of said assets and decide on possible downgrades.

Outperformance in relation to the index is achieved in two ways: additional yield offered by risky debt, corporate and government debt in particular, and dynamic portfolio rotation when there is a decline in this surplus yield. The Fund may invest in the securities of any type of issuer whose registered office is located in an OECD member country and/or in euro-denominated securities listed on a stock exchange of an OECD member country, without any restriction in terms of credit quality. The Fund may not invest in bonds of issuers included on the FATF blacklist.

Information on the Fund's modified duration is shown in the table below:

Interest rate sensitivity range within which the Fund is managed	Geographic zones of issuers of securities or underlying securities of securitisation products	Range of exposure to this zone
0-8	OECD Zone	between 75% and a maximum of 100% of the net assets

	Other regions	between 0 and a maximum of 25% of the net assets
--	---------------	--

The Fund may not invest in bonds denominated in currencies other than the euro.

2. Assets (excluding embedded derivatives)

Equities:

- A maximum of 10% in preference shares insofar as they may be considered deeply subordinated instruments with the following characteristics: rated investment grade by a ratings agency or an equivalent rating by the management company; a fixed dividend comparable to accrued interest; perpetual debt likely to be called in by the issuer under specified conditions; sensitive to interest rates.
- A maximum of 5% in ordinary shares. The Fund will not invest actively in equities but may hold equities if they derive from a debt restructuring, typically following an exchange of shares for debt. The fund manager will do his best to sell the shares received as soon as possible depending on market conditions with a view to optimising the exit price for the holders.

Debt securities and money market instruments:

- A maximum of 100% in euro-denominated bonds and negotiable debt securities issued by companies and financial institutions, without any credit restrictions.
- A maximum of 100% in euro-denominated debt issued by OECD member states.
- A maximum of 20% in convertible or similar bonds.
- Specific euro-denominated instruments:
 - A maximum of 20% in securities issued as part of a EMTN programme whose issuer is not the same as the issuer of the underlying security, insofar as the performance of these securities is index-linked to changes in interest rate or credit spread risk.
 - Up to 10% in securities issued by securitisation vehicles (special purpose vehicles, ABS, MBS, CDO, etc.) investing solely in physical assets as opposed to synthetic debt.

The Fund may not invest in subordinated debt issued by banks or insurance companies.

UCIs:

Up to a maximum 10% of the net assets in money market UCITS and AIF, short-term money market funds or French-governed bond funds provided that less than 10% of these funds' assets are invested in other UCIs.

These UCIs may be managed by the management company.

3. Derivatives

- Types of markets:
 - ☒ regulated
 - ☒ organised
 - ☒ OTC
- The manager intends to seek exposure to:
 - ☐ equities
 - ☒ interest rates
 - ☐ currencies
 - ☒ credit

☐ other

• Types of transactions – all transactions must be limited to achieving the investment objective:

- ☒ hedging
- ☒ exposure
- ☐ arbitrage
- ☐ other

• Type of instruments used:

- ☒ futures:
 - ☐ equity and equity index
 - ☒ interest rate
 - ☐ currency
 - ☐ other
- ☒ options:
 - ☐ equity and equity index
 - ☒ interest rate
 - ☐ currency
 - ☐ other
- ☒ swaps:
 - ☐ equity swaps
 - ☒ interest rate swaps
 - ☐ currency swaps
 - ☐ performance swaps
- ☐ currency forwards
- ☒ credit derivatives : CDS are limited to 40% of the net assets
- ☐ other

• Strategy of use of derivatives to achieve the investment objective:

- ☒ partial or general hedging of the portfolio, some risks and securities
- ☒ creating synthetic exposure to assets and risks
- ☒ increasing exposure to the market without leverage
- ☐ maximum permitted and sought
- ☐ other strategy

4. Securities with embedded derivatives

The manager may invest in securities with embedded derivatives (convertible bonds, callable and puttable bonds, warrants, etc.) traded on regulated, organised or OTC markets.

Within this framework, the manager may take positions with a view to hedging the portfolio against and/or exposing it to particular business sectors, geographic regions, shares (all capitalisation types), stocks and similar securities in order to achieve the investment objective.

In all cases, total investments in securities with embedded derivatives may not exceed 100% of net assets.

5. Deposits

Up to 10% of the UCIs assets may be held in deposits.

6. Cash borrowings

The UCI may borrow cash within the limit of 10% of its assets to meet specific cash requirements related to its operating needs.

7. Temporary purchases and sales of securities

None

8. Information on financial guarantees

In connection with over-the-counter derivative transactions, and in accordance with Position paper 2013-06 issued by the French financial markets regulator (Autorité des Marchés Financiers- AMF), the UCI may receive collateral in the form of securities (such as bonds or other securities issued or guaranteed by a State or issued by international financing agencies and bonds or securities issued by high quality corporate issuers), or cash. Any cash collateral received is reinvested in accordance with the applicable rules. All such assets must be from high-quality issuers that are not an entity of the counterparty or its group, and must be liquid and diversified with low volatility. Discounts may be applied to the collateral received; they take into account the quality of credit and the price volatility of the securities.

9. Risk profile

Disclaimer

Your money will be mainly invested in financial instruments selected by the management company. These instruments will be exposed to market trends and fluctuations.

• Risk of capital loss

There is no guarantee of the UCI's performance or protection of capital. As such, the investor may not get back the full amount of the initial investment during redemption.

• Risk related to discretionary management

Discretionary management is based on anticipation of market trends. The UCI's performance is dependent both on the selection of securities and UCI picked by the manager and the manager's asset allocation. There is therefore a risk that the manager will not select the best performing securities and that the asset allocation is not optimal.

• Credit risk

The risk of a deterioration in the credit quality of or default by a public or private issuer. The UCI's exposure to issuers either through direct investment or via other UCI may give rise to a decline in the net asset value. If the UCI is exposed to unrated or speculative/high yield debt, the credit risk is high and may lead to a decline in the UCI's net asset value.

- **Interest rate risk**

The risk of a decline in debt instruments as a result of changes in interest rates. This risk is measured by the level of sensitivity. For instance, bond prices tend to move in the opposite direction to interest rates. The net asset value may decline during periods when there is an increase (positive sensitivity) or decrease (negative sensitivity) in interest rates.

- **Derivative financial instrument risk**

The risk arising from the UCI's use of forward financial instruments (derivatives), which may lead to a bigger decrease in the net asset value than on the markets or in the underlying assets in which the UCI has invested.

- **Counterparty risk**

this type with one or more counterparties potentially exposes the UCI to a risk of insolvency of one or more of these counterparties, which could lead to default on payment and cause a decrease in the UCI's net asset value.

- **Emerging country risk**

The operational and supervisory standards applicable to emerging markets may differ from those on international markets, as a result there is a risk that this may affect the UCI's net asset value.

- **Risk related to securitisation assets**

Securitisation assets entail credit risk mainly linked to the quality of the underlying assets, which vary by nature (bank receivables, debt securities, etc.). These instruments are complex structures that can entail legal risks and specific risks related to the characteristics of the underlying assets. If these risks materialise, they can cause a decrease in the UCI's net asset value.

- **Equity risk**

Share price fluctuations may have a negative impact on the UCI's net asset value. The UCI's net asset value may decrease during periods in which the equity markets are falling.

10. Guarantee or protection

None

11. Eligible subscribers and typical investor profile

This Fund is aimed at investors who are aware of the risks associated with investing in the international credit markets.

Subscribers are strongly advised to diversify their investments sufficiently to avoid exposure solely to the risks of this UCI.

Information on US investors:

The Fund is not registered as an investment vehicle in the United States and its units are not and will not be registered under the Securities Act of 1933 and, therefore, they may not be offered or sold in the United States to Restricted Persons, as defined hereafter.

A Restricted Person is (i) any person or entity located in the United States (including US residents), (ii) any corporation or any other entity subject to the laws of the United States or any state thereof, (iii) any US military personnel or any employee of a US government department or agency located outside the United States, or (iv) any other person that would be considered a US Person under Regulation S of the Securities Act of 1933, as amended.

FATCA:

Pursuant to the provisions of the Foreign Account Tax Compliance Act ("FATCA") applicable as of July 1st, 2014, if

the Fund invests directly or indirectly in US assets, the capital and income arising from such investments may be subject to withholding tax of 30%.

To avoid paying the 30% withholding tax, France and the United States have entered into an intergovernmental agreement under which non-US financial institutions (“foreign financial institutions”) agree to institute procedures for identifying direct or indirect investors who qualify as US taxpayers and to provide certain information about these investors to the French tax authorities, which will disclose said information to the US tax authority, the Internal Revenue Service.

As a foreign financial institution, the Fund undertakes to comply with the FATCA and to take all appropriate measures pursuant to the aforementioned intergovernmental agreement.

The amount that it is reasonable to invest in this UCI depends on each investor's personal circumstances. To determine this, investors should take account of their personal financial situation, current needs and the recommended investment period, and should also consider their ability to assume risk or whether they prefer instead to opt for a more cautious

This UCI may not be suitable for investors planning to withdraw their contributions within 3 years.

12. Allocation of distributable income

Distributable income consists of:

1) net income plus retained earnings, plus or minus the balance of the revenue adjustment account. Net income for the financial year is equal to the amount of interest, arrears, dividends, bonuses and prizes, directors’ fees and all income generated by the securities that make up the UCIs portfolio, plus income generated by temporary cash holdings and minus management fees and borrowing costs.

2) realised capital gains, net of charges, minus realised capital losses, net of charges, recognised for the financial year, plus any net capital gains of the same kind recognised over previous years that have not been distributed or accumulated, plus or minus the balance of the capital gains adjustment account.

The amounts referred to in 1) and 2) may be distributed independently of each other, in whole or in part.

Unit	Allocation of distributable income
RC EUR , RC H-CHF , PC EUR , PC H-CHF	Distributable income is accumulated in full, with the exception of those amounts subject to compulsory distribution by law.
RD EUR , PD EUR	Net income is distributed in full and the allocation of net realised capital gains is decided each year by the management company. It may pay interim dividends.

13. Frequency of distribution

PC EUR, PC H-CHF, RC EUR and RC H-CHF units: None.

PD EUR and RD EUR units: The dividend is paid out to holders of D units once a year.

14. Characteristics of the shares (base currency, division of shares, etc.)

Unit	Base currency
RC EUR, RD EUR, PC EUR, PD EUR	EUR
RC H-CHF, PC H-CHF	CHF

Unit	Division of units
RC EUR, RD EUR, RC H-CHF, PC EUR, PD EUR, PC H-CHF	In whole number

15. Terms and conditions of subscription and redemption

Subscription and redemption orders are accepted in units only.

Date and frequency of NAV calculation:

The net asset value is calculated every day except Saturdays and Sundays, public holidays in France within the meaning of Article L.3133-1 of the French Labour Code, and days on which the following stock exchange(s) is/are closed: Paris.

Where and how to find out the net asset value: the net asset value is published daily in the offices of Lazard Frères Gestion and on the internet www.lazardfreresgestion.fr.

Address of the institutions designated to receive subscription and redemption orders:

CACEIS BANK - 1-3 place Valhubert - 75013 Paris

Bank and investment services provider accredited by the CECEI on April 1st, 2005.

Investors are reminded that orders transmitted to distributors other than the institution referred to above must take into consideration the fact that the cut-off time for the processing of orders applies to the said distributors vis-à-vis the institution referred to above. Consequently, such distributors may apply their own cut-off time, which may be earlier than the cut-off time indicated above, in order to take into account the time required to transmit orders to the institution referred to above.

LAZARD FRERES BANQUE - 121 boulevard Haussmann - 75008 Paris

On behalf of clients for whom it provides custody account-keeping services

Orders are executed as indicated in the table below

Business d	Day on which NAV is set (d)	Business d +1	Business d+2	Business d+2
Daily order reception and daily centralisation of redemption orders before 12:00 a.m. (Paris time)	Order executed by the latest on d	Publication of the net asset value	Settlement of subscription	Settlement of redemptions

Subscriptions preceded by a redemption received from the same unitholder on the same day for the same number of units at the same NAV may be executed.

16. Fees and expenses

Subscription and redemption fees are respectively added to the subscription price paid by the investor or deducted from the redemption price paid. The fees earned by the SICAV are used to cover the charges that it

incurs in investing or divesting the assets under management. The remaining fees are paid to the management company, the distributor, etc.

Charges payable by the investor during subscription and redemption	Basis	Unit	Rate (maximum incl. taxes)
Subscription fees not retained by the UCI	NAV x nombre of units	RC EUR, RD EUR, RC H-CHF, PC EUR, PD EUR, PC H-CHF	4.0%
Subscription fees retained by the UCI	NAV x nombre of units	RC EUR, RD EUR, RC H-CHF, PC EUR, PD EUR, PC H-CHF	0.0%
Redemption fees not retained by the UCI	NAV x nombre of units	RC EUR, RD EUR, RC H-CHF, PC EUR, PD EUR, PC H-CHF	4.0%
Redemption fees retained by the UCI	NAV x nombre of units	RC EUR, RD EUR, RC H-CHF, PC EUR, PD EUR, PC H-CHF	0.0%

Exemption: No subscription and/or redemption fee will be charged in the case of a redemption followed by a subscription, on the same day, for the same amount, based on the same NAV.

Expenses charged to the UCI	Basis	Unit	Rate (maximum incl. taxes)	
Financial management fees	Net assets less UCIs managed by Lazard Frères Gestion	RC EUR	1.400%	
		RD EUR	1.400%	
		RC H-CHF	1.450%	
		PC EUR	0.715%	
		PD EUR	0.715%	
		PC H-CHF	0.765%	
Administrative fees external to the management company	Net assets	Applied to all the units	0.035%	
Indirect charges	N.A	Applied to all the units	None	
Turnover commission (0% to 100% received by the management company and 0% to	Maximum charge on each	Applied to all the	Bonds, debt securities, foreign exchange	From 0% to 0,10%

100% received by the custodian)	transaction	units	Futures and other transactions	From €0 to €450 per contract
Performance fees	Net assets	RC EUR, RD EUR, RC H-CHF	None	
		PC EUR, PD EUR, PC H-CHF	15% of the outperformance relative to benchmark index, capped at 2%	

*** Calculation of the performance fee:**

Performance fees are calculated by comparing changes in the Fund's assets over the financial year (net dividends reinvested and excluding variable management fees) with the assets of a benchmark fund:

- with a baseline value equal to the value of the Fund's assets at the close of the last financial year;
- and with a daily performance equal to that of the benchmark index (net dividends reinvested) in euros and registering the same variations in subscriptions and redemptions as the Fund.

If, at the close of the financial year, the Fund's assets (excluding variable management fees) exceed those of the benchmark fund, a performance fee will be charged equal to 15% (including taxes) of the difference in value between the Fund's assets and the benchmark fund.

If the Fund underperforms the benchmark fund between two net asset value dates, any provision previously recognised will be reversed. Amounts deducted from provisions may not exceed the amount previously accumulated.

This variable portion will only be definitively transferred to the management company at the end of the reference period if the Fund outperforms the benchmark fund over the reference period.

These fees (fixed portion and variable portion, if any) are directly charged to the Fund's income statement.

Redemptions occurring during the life of the Fund will give rise to the early payment of the corresponding portion of the variable fees.

Where redemptions occur, the performance provision will be adjusted pro rata to the amounts redeemed, and the reversed provision will revert to the management company.

Only the contributions payable for the management of the UCI pursuant to Article L. 621-5-3 II 4° d) of the French Monetary and Financial Code (Code monétaire et financier) and any exceptional legal costs related to debt recovery are outside the scope of the three blocks of charges referred to above.

Repurchase agreements are executed at market prices.

With the exception of brokerage fees, accounting management costs and custodians fees, all of the charges referred to above are levied as part of the joint venture arrangement between Lazard Frères Banque and Lazard Frères Gestion SAS which since 1995 has enabled them to pool their financial control, administration, and portfolio

execution resources.

All revenue resulting from efficient portfolio management techniques, net of direct and indirect operating costs, is allocated to the Fund. All costs and expenses related to these management techniques are assumed by the UCI.

For further information, investors may refer to the management report.

17. Outline of the counterparty selection procedure

The intermediaries used in fixed-income management are selected using a range of evaluation criteria:

- Quality of order execution and prices negotiated;
- Quality of operational service in processing orders;
- Coverage of information when monitoring markets;
- Quality of macroeconomic and financial research.

The fixed-income managers report at least twice a year to the management company's Broker Committee, with an assessment of the services provided by the various brokers and a breakdown of transaction volumes. The Broker Committee approves any updates to the list of authorised brokers.

IV - SALES AND MARKETING INFORMATION

Publication of information about the UCI	LAZARD FRERES GESTION SAS
	25, rue de Courcelles 75008 Paris France
	Customer service - Monday to Friday - 9 to 18
	Tel. +33 (0)1 44 13 01 79

Information regarding environmental, social and corporate governance (ESG) issues is available on the management company's website (www.lazardfreresgestion.fr) and will be included in the fund's annual report.

The management company may send, directly or indirectly, information on the composition of the Fund's assets to the Fund's shareholders for purposes related solely to shareholders' regulatory obligations. This information will be sent, where applicable, within a period not less than 48 hours after publication of the NAV.

Information in the event of a change in the operation of the UCI:

The shareholders shall be informed of any changes in the operation of the UCI in the press or by any other means in accordance with the prevailing regulations. This information may, where relevant, be provided through Euroclear France financial intermediaries affiliated with it.

Information about the use of investment decision-making support and order execution services (SADIE) can be found on the management company's website (www.lazardfreresgestion.fr).

V - INVESTMENT RULES

The UCI's investment rules are laid down in the French Monetary and Financial Code.

VI - AGGREGATE RISK

The aggregate risk is calculated using the commitment method.

VII - ASSET VALUATION AND ACCOUNTING RULES

1. ASSET VALUATION RULES

1.1. Financial instruments and securities traded on a regulated market are valued at their market price.

- **Shares and similar securities** are valued on the basis of the last known price on their main market.

If applicable, prices are translated into euros using the exchange rate prevailing in Paris on the valuation day (as published by WM Closing).

- **Fixed-income securities**

Fixed-income securities are for the most part marked to market based on either Bloomberg prices (BGN)® derived from averages of contributed prices, or on those of direct contributors.

There may be a discrepancy between the carrying amounts, valued as indicated above, and the actual disposal prices that would be obtained if a portion of these portfolio assets were to be sold.

- o **Bonds and similar instruments** are valued on the basis of the average of the closing prices gathered from several contributors.

Financial instruments whose prices have not been determined on the valuation date or whose prices have been adjusted are valued at their probable trading price under the responsibility of the management company.

. These estimates and their supporting documentation will be provided to the statutory auditor during audits.

However, the following instruments are valued using the following specific methods:

- o **Negotiable debt securities:**

Negotiable debt securities are marked to market based on either Bloomberg prices (BVAL and/or BGN)® derived from averages of contributed prices, or on those of direct contributors.

There may be a discrepancy between the carrying amounts, valued as indicated above, and the actual disposal prices that would be obtained if a portion of these portfolio assets were to be sold.

The valuation of money market instruments complies with the provisions of Regulation (EU) 2017/1131 of 14 June 2017. Consequently, the UCI does not use the amortised cost method.

- **UCIs:** Units or shares of UCIs are valued at the last known net asset value. Units or shares of UCIs for which net asset values are published monthly may be valued on the basis of interim net asset values calculated from estimated prices.
- **Temporary purchases and sales of securities** - Securities purchased under repurchase agreements are valued at their contract price using an actuarial method with a benchmark rate (overnight Eonia, one- or two-week

interbank rates, one- to 12-month Euribor) corresponding to the term of the contract.

- Securities sold under repurchase agreements continue to be valued at their market price. Liabilities on securities sold under repurchase agreements are calculated using the same method as that used for securities purchased under repurchase agreements.

- **Futures and options**

- Futures and options are valued on the basis of intraday trading prices the timing of which is based on that of the valuation of the underlying assets.

- Positions taken on the futures or options markets and over the counter are valued at their market price or at the value of the equivalent underlying asset.

1.2. Financial instruments and securities not traded on a regulated market

All of the UCI's securities are traded on regulated markets.

1.3. Valuation methods for off-balance sheet commitments

- Off-balance sheet transactions are valued at the commitment value.

- The commitment value for futures contracts is equal to the price (in the UCI's currency) multiplied by the number of contracts multiplied by the face value.

- The commitment value for options is equal to the price of the underlying security (in the UCI's currency) multiplied by the number of contracts multiplied by the delta multiplied by the face value of the underlying security.

- The commitment value for swaps is equal to the face value of the contract (in the UCI's currency).

2. ACCOUNTING POLICIES

The UCI complies with the accounting rules prescribed by current regulations, in particular the accounting standards applicable to UCIs. The financial statements are presented in accordance with the regulatory provisions governing the preparation and publication of financial statements of undertakings for collective investment.

- **Income from fixed-income securities**

- Income from fixed-income securities is recorded on the basis of accrued interest.

- **Management fees**

- Management fees are calculated on each valuation day.

- The annual management fee rate is applied to gross assets (equal to net assets before deduction of the day's management fees):

Gross assets less UCIs managed by Lazard Frères Gestion
x operating and management fees rate
x no. of days between the calculated NAV and the previous NAV
365 (or 366 in a leap year)

- These amounts are then recorded in the SICAV's income statement.

- The SICAV pays the operating fees, which include:

- . financial management;
- . administration and accounting;
- . custody services;
- . other operating fees:

- . statutory auditors' fees;
- . legal notices (Balo, Petites Affiches, etc.) if applicable.

These fees do not include transaction charges.

- **Transaction charges**

Transactions are recorded excluding charges.

- **Retrocessions received on management fees or entry charges**

The method used to calculate retrocession amounts is set out in the sales and marketing agreements.

- If the amount is significant, a provision is recognised in account 61719.
- The final amount is recognised upon settlement of invoices after reversal of any provisions.

Method related to swing pricing adjustments to net asset value (NAV) with a trigger level:

To avoid disadvantaging unitholders that remain in the Fund, a swing factor will be applied to subscriptions and redemptions that have a significant impact on the Fund's outstandings, which may generate costs for unitholders entering and leaving the Fund that would otherwise have been allocated across all unitholders in the Fund. Therefore, if, on a particular NAV calculation date, the total net subscription/redemption orders of investors across all categories of Fund units exceeds a threshold predetermined by the financial sub-manager on the basis of objective criteria and expressed as a percentage of the net assets in the Fund, the NAV may be adjusted upwards or downwards to take account of the readjustment costs attributable to the net subscription/redemption orders. The NAV of each unit category shall be calculated separately, but any adjustment shall have an identical impact, expressed as a percentage, on all of the NAV calculations of each unit category in the Fund. The cost parameters and trigger level shall be determined by the management company and shall be reviewed periodically, and at least every six months. These costs shall be estimated by the management company based on transaction charges, bid/offer spreads and any taxes applicable to the Fund. Insofar as this adjustment mechanism is linked to the net balance of subscriptions/redemptions within the Fund, it is not possible to accurately predict a given time in the future at which swing pricing will be applied. Consequently, neither is it possible to predict the precise frequency at which the management company will have to make such adjustments, which shall not exceed 2% of the NAV. Investors should be aware that the volatility of the Fund's NAV may not reflect solely that of the securities in the portfolio arising from the application of swing pricing.

FUND REGULATIONS
LAZARD EURO CORP HIGH YIELD

Title I - Assets and Units

ARTICLE 1 - CO-OWNERSHIP UNITS

Co-ownership rights are expressed in units, where each unit corresponds to any single fraction of the Fund's assets. Each unitholder has an ownership right in the assets of the Fund in proportion to the number of units owned.

The Fund's term is 99 years from 21/09/2007, except in the event that the Fund is dissolved before the end of the term or extended pursuant to these regulations.

Unit classes:

The features of the different unit classes and their eligibility requirements are set out in the Fund's prospectus.

The different unit classes may:

- apply different dividend policies (distribution or accumulation);
- be denominated in different currencies;
- be subject to different management fees;
- be subject to different subscription and redemption fees;
- have a different par value;
- be systematically hedged, in full or in part, against risk as set out in the prospectus. This hedging is achieved through financial instruments that reduce to a minimum the impact of hedging transactions on the UCITS' other unit classes;
- be reserved to one or more distribution networks.

Possibility of combining or splitting units.

The units may be sub-divided, upon the decision of the management company, into hundredths or thousandths of units, referred to as fractional units.

The provisions hereof governing the issue and redemption of units shall apply to fractional units, the value of which shall always be proportional to the value of the unit they represent. Unless otherwise stipulated, all other provisions hereof relating to units shall automatically apply to fractional units. At the sole discretion of the management company, the units may be split by creating new units to be allocated to unitholders in exchange for existing units.

ARTICLE 2 - MINIMUM AMOUNT OF ASSETS

Units may not be redeemed if the assets are less than 300,000 (three hundred thousand) euros. When the assets

remain under this level for thirty days, the management company shall take all necessary measures to dissolve the Fund concerned or to undertake one of the operations mentioned in Article 411-16 of the General Regulation of the French financial markets regulator (Autorité des Marchés Financiers – AMF) (UCITS transfer).

ARTICLE 3 - ISSUE AND REDEMPTION OF UNITS

Units may be issued at any time upon request of unitholders on the basis of the net asset value plus subscription fees, if any.

Redemptions and subscriptions shall be made under the conditions and in accordance with the procedures set out in the prospectus. The UCI's shares may be listed for trading, in accordance with applicable regulations.

Subscriptions must be fully paid-up as of the date of the calculation of the net asset value. They may be undertaken in cash and/or by contribution of financial instruments. The management company is entitled to refuse the instruments proposed and, to that end, has seven days in which to give its decision. In the event that the instruments are accepted, they are valued according to the rules set out in Article 4, and subscription is undertaken using the first net asset value following acceptance of the instruments in question.

Redemptions may be made in cash and/or in kind. If the redemption in kind corresponds to a representative share of the assets in the portfolio, only the outgoing unitholder's written and signed agreement must be obtained by the UCI or management company. If the redemption in kind does not correspond to a representative share of the assets in the portfolio, all of the unitholders must provide their written signed agreement authorising the outgoing unitholder to obtain redemption of their units against certain specific assets, as explicitly defined in the agreement.

In general, the assets redeemed are valued according to the rules set out in Article 4, and the redemption in kind is undertaken using the first net asset value following acceptance of the instruments in question.

Redemptions are paid by the account keeper within at most five days of the unit's valuation day.

Under exceptional circumstances, however, where reimbursement requires the prior disposal of assets held in the UCI, this period may be extended up to a maximum of 30 days.

With the exception of inherited or gifted units, the sale or transfer of units between unitholders or between unitholders and third parties is deemed to be a redemption followed by a subscription. If the beneficiary of the sale or transfer is a third party, the beneficiary must add the amount necessary, if any, to increase the total to the minimum subscription amount indicated in the Prospectus.

Pursuant to Article L. 214-8-7 of the French Monetary and Financial Code (Code monétaire et financier), redemption by the UCI of its units, and the issue of new units, may be temporarily suspended by the management company in exceptional circumstances and if required in the interests of unitholders.

No units may be redeemed if the net assets of the UCI are less than the regulatory amount.

Pursuant to Article L. 214-8-7 of the French Monetary and Financial Code and Article 411-20-1 of the General Regulation of the French financial markets regulator (Autorité des Marchés Financiers - AMF), the management company may decide to put a cap on redemptions if warranted by exceptional circumstances and in the interest of the unitholders and the general public.

The method used for this capping mechanism and the measures for informing the unitholders must be described in detail.

The UCI may cease to issue units on a temporary or permanent basis, in part or in full, pursuant to the provisions

set out in the third paragraph of Article L. 214-8-7 of the French Monetary and Financial Code, in objective situations that warrant the closure of subscription such as cases where the maximum number of issued units has been reached, the maximum amount of assets has been reached, or the subscription period has expired. If such partial or full closure is activated, the existing unitholders must be informed by all available means, including details of the threshold and objective situation that triggered the decision. In the case of partial closure, the existing unitholders must also be informed in detail of the methods by which they can continue to subscribe during this partial closure period. The unitholders must also be informed by all available means if the UCI or management company decide to discontinue the full or partial subscription closure period (when the activation threshold is no longer exceeded) or continue the closure period (change in the threshold or the objective situation that warranted implementation of the measure). Any change in the specified objective situation or in the activation threshold must always be in the interest of the unitholders. Information by any means shall specify the exact reasons for such changes.

ARTICLE 4 - CALCULATION OF THE NET ASSET VALUE

The net asset value of units is calculated according to the valuation rules set out in the prospectus.

Contributions in kind may consist only of securities, stocks or contracts that are eligible to form the assets of UCIs; they are valued according to the valuation rules used to calculate the NAV.

Title II - Fund Operation

ARTICLE 5 - MANAGEMENT COMPANY

The management company is responsible for managing the Fund in accordance with the orientation stated for the Fund.

The management company shall take all necessary decisions to change the Fund's investment strategy or policy, in the interests of investors. Such changes may be subject to the approval of the AMF.

In all circumstances, the management company shall act in the sole interest of the unitholders and is solely authorised to exercise the voting rights attached to the securities held by the Fund.

ARTICLE 5A - OPERATING RULES

The instruments and deposits eligible for inclusion in the Fund as well as the investment rules are shown in the prospectus.

ARTICLE 5B - ADMISSION TO TRADING IN A REGULATED MARKET AND/OR A MULTILATERAL TRADING SYSTEM

The units may be admitted to trading on a regulated market and/or a multilateral trading facility, in accordance with applicable regulations. If the Fund whose units are admitted for trading on a regulated market has an investment objective based on an index, it must have set up a system to ensure that the price of its units does not deviate significantly from its net asset value.

ARTICLE 6 - CUSTODIAN

The custodian performs the tasks for which it is responsible under the legal and regulatory provisions in force as well as those entrusted to it contractually by the management company.

In particular, the custodian must ensure that the decisions of the management company are lawful. It shall take any protective measures it considers appropriate. In the event of a dispute with the management company, it shall inform the AMF.

ARTICLE 7 - STATUTORY AUDITOR

A statutory auditor is appointed by the management company's governance body for a term of six financial years, following AMF approval.

The statutory auditor shall certify that the financial statements give a true and fair view of the company.

The statutory auditor's term may be renewed.

The statutory auditor has a duty to report promptly to the AMF any fact or decision concerning the Fund of which he has become aware in the course of his duties and which is liable to:

- 1° Constitute a breach of the laws or regulations that apply to that fund and that is likely to have significant effects on its financial situation, profits or assets;
- 2° Affect the conditions or the continuity of its operations;
- 3° Lead to the expression of reservations or the refusal to certify the accounts.

The statutory auditor shall oversee the valuation of assets and the calculation of exchange ratios used in the event of a conversion, merger or split.

The statutory auditor shall assess any contribution in kind under his own responsibility.

He shall verify the accuracy of the composition of assets and other information prior to publication.

The statutory auditor's fees shall be set by mutual agreement between the statutory auditor and the management company's board of directors or executive board on the basis of a work schedule setting out the procedures deemed necessary.

The statutory auditor shall certify the positions used as the basis for the distribution of interim dividends. His fees are included in the management fees.

ARTICLE 8 - FINANCIAL STATEMENTS AND MANAGEMENT REPORT

At the close of each financial year, the management company shall prepare the financial statements and a report on the management of the Fund during the year just ended.

The management company shall draw up an inventory of the UCI's assets at least every six months and under the control of the Custodian.

The management company shall make these documents available to unitholders within four months of the end of the financial year and shall inform them of the amount of income to which they are entitled.

These documents shall be either sent by post, at the request of unitholders, or made available to them at the management company's premises.

Title III - Distribution of distributable income

ARTICLE 9 - DISTRIBUTION OF DISTRIBUTABLE INCOME

Distributable income consists of:

1) net income plus retained earnings, plus or minus the balance of the revenue adjustment account.

Net income for the financial year is equal to the amount of interest, arrears, dividends, bonuses and prizes, directors' fees and all income generated by the securities that make up the Fund's portfolio, plus income generated by temporary cash holdings, minus management fees and borrowing costs.

2) realised capital gains, net of charges, minus realised capital losses, net of charges, recognised for the financial year, plus any net capital gains of the same kind recognised over previous years that have not been distributed or accumulated, plus or minus the balance of the capital gains adjustment account.

The amounts referred to in 1) and 2) may be accumulated and/or distributed and/or retained independently of each other, in whole or in part.

Details of the relevant process are provided in the prospectus under the section entitled "Allocation of distributable income".

Title IV - Merger - Split - Winding-up - Liquidation

ARTICLE 10 - MERGER - SPLIT

The management company may either contribute the assets of the Fund, in whole or in part, to another UCITS managed by it, or split the Fund into two or more open-end funds.

These merger or split transactions may only be undertaken after the unitholders have been informed. They shall give rise to a new certificate specifying the number of units held by each unitholder.

ARTICLE 11 - WINDING-UP - EXTENSION

If the assets of the Fund remain less than the amount set forth in Article 2 above for 30 days, the management company shall inform the AMF thereof and either merge the Fund with another open-end investment fund (FCP) or dissolve the Fund.

The management company may dissolve the Fund prior to its termination date; in this case, it shall inform unitholders of its decision and from then on subscriptions and redemptions shall no longer be accepted.

The management company shall also dissolve the Fund if it receives redemption applications for all units, if the custodian ceases to discharge its responsibilities and no other custodian is designated or if at the end of the Fund's duration, its termination date has not been extended.

The management company shall inform the AMF by letter of the chosen date and dissolution procedure. It shall

then send the statutory auditors' report to the AMF. A Fund's extension may be decided by the management company with the custodian's agreement. Its decision must be taken at least three months before the Fund's planned duration and communicated to the unitholders and the AMF.

ARTICLE 12 - LIQUIDATION

In the event that the Fund is dissolved, the management company shall be responsible for liquidation transactions; otherwise, the liquidator shall be appointed by the court at the request of any interested party.

In this regard, they shall be granted the widest possible powers to sell assets, pay creditors, if any, and divide the remaining balance among unitholders in cash or in securities. The statutory auditor and custodian shall continue to perform their duties until the end of the liquidation transactions.

Title V - Settlement of disputes

ARTICLE 13 - JURISDICTION - ADDRESS FOR SERVICE

All disputes relative to the Fund that may arise during its lifetime or at the time of liquidation, be they disputes between unitholders, or between unitholders and the management company or the custodian shall be submitted to the courts of competent jurisdiction.
