INVESTMENT POLICY

The investment objective is to match or exceed the performance, net of expenses, of the benchmark, the Euro Stoxx, over the recommended investment period.

FUND MANAGERS COMMENT

What with the trade war that seemed to be intensifying, the mixed macroeconomic figures out of China, the Brexit prevarications and the social unrest in France, the market plummeted in December and ended the year at almost its lowest level. Hurt by its overexposure to commodities and industrial goods, by the absence of utilities and by negative stock picks in technology, the fund underperformed its benchmark index by more than 195 basis points and fell by 7,71% over the month. It was particularly penalised by the performance of Ingenico, which has dropped talks with potential partners for the time being, by those of Eiffage, Société Générale and Saint-Gobain, which are suffering from their French bias, and by that of Renault, whose alliance with Nissan is undermined by Carlos Ghosn's continued imprisonment in Japan. On the other hand, it benefited from strong picks in media and chemicals, with WPP and Air Liquide, as well as the outperformances of Munich Re and BMW.
