INVESTMENT POLICY

The investment objective is to match or exceed the performance, net of expenses, of the benchmark, the Euro Stoxx, over the recommended investment period.

FUND MANAGERS COMMENT

Sadly, new restrictive measures had to be implemented almost everywhere in Europe, even to the point of a virtually total lockdown, as was the case in France with some other countries following suit. The resumption of the epidemic in the United States was also a source of concern for the markets, but it was the prospect of the election of poll favourite Joe Biden that dominated the behaviour of the US bond market, where yields tightened, while in Europe the Bund yield fell from -0,52% to -0,62%. The Euro Stoxx fell by 5,73%, while the fund was slightly more resilient with a decline of 5,28% (1 Unit). It was hurt by its positions in industrial goods and consumer goods, with declines by JDE Peets and Danone in particular, as well as by the poor performances of Atos and Bayer over the month. That said, it benefited from a degree of sector rotation with banks, automotive and media outperforming. More specifically, Publicis, Orange, Banco Santander and ArcelorMittal made a positive contribution.
