INVESTMENT POLICY

The investment objective is to match or exceed the performance, net of expenses, of the benchmark, the Euro Stoxx, over the recommended investment period.

FUND MANAGERS COMMENT

In March, the market shrugged off the new lockdown measures in Europe and the epidemic outbreaks in South America and India to focus only on the good news: effectiveness vaccination campaigns in the countries where they have been massively deployed (United Kingdom and Israel), continued strong recovery in Asia, vast scale of stimulus plans in the United States and, to a lesser extent, in Europe. Buoyed by these prospects, which were accompanied by a lull in the bond markets, with yields rising only very slightly over the month, the Euro Stoxx rose sharply, by 6,61%. The fund, which was less driven by thematic rotation than in previous months, rose by 6,46% (1 share). It was hurt by the troubles of Crédit Suisse (the fund's holding has since been sold), by the poor performances of JDE Peet's and Continental, and by the speculative rise of Volkswagen, which was not held in the portfolio. On the other hand, it benefited from strong stock picks in commodities, notably ArcelorMittal and Aperam, as well as in consumer goods and food and beverages. BMW, ING Groep, Saint-Gobain and AkzoNobel also made positive contributions. Lazard Frères Gestion informs you that the management company has updated the provisions relating to the inclusion of environmental, social and governance (ESG) criteria in the KIIDs and prospectuses of its Funds in accordance with EU Regulation 2019/2088 on the publication of sustainability information in the financial services sector and with AMF Position-Recommendation 2020-03 on collective investments incorporating extra-financial approaches.
