INVESTMENT POLICY

The management objective aims to achieve, based on a minimum investment term of five years, a performance greater than the Euro Stoxx index, net dividends reinvested, with a lower volatility and a controlled compared risk.

FUND MANAGERS COMMENT

With the new restrictive measures introduced in Europe at the start of 2021, the market slowed in January. The Euro Stoxx ended the first month of the year with a loss of 1,37%. The situation in Europe thwarted this initial optimism, without however affecting all global markets as oil rose by nearly 10% over the month and the US 10-year yield was up 15bp, to cite two examples. The fund lost 1,7% (C share). It was hurt by a marked allocation effect (underweighting) in the technology sector (absence of ASML, Nokia and Prosus). On the other hand, it benefited from Valmet's good economic performance, the rebound of Nexity, which reported a sharply improved margin outlook, and a positive stock-picking effect in the banking sector (Swedbank).
