INVESTMENT POLICY

The management objective aims to achieve, based on a minimum investment term of five years, a performance greater than the Euro Stoxx index, net dividends reinvested.

FUND MANAGERS COMMENT

The market dropped sharply in October, shaken by a raft of profit warnings, particularly in the automotive sector, as well as by concerns about the situation in Italy and consumption in China. The Euro Stoxx lost 6,62% over the month, hurt in the first fortnight by a decline in high-multiple stocks, notably luxury and technology, then by a number of publications. The fund was able to make the most of this rotation at the beginning of the period and although it was also hurt by some disappointing results that led to a highly volatile relative performance, it nevertheless ended this very downbeat month with an outperformance, down 6,14% compared with 6,62% for its benchmark index. Aperam, Atos and Voestalpine released disappointing third quarter results and reacted very badly. Despite a satisfactory earnings release, Amundi was down over the month. More generally, commodities, financial services and utilities made a negative contribution. By contrast, healthcare continued the sharp rise that started in the spring, with good contributions from Merck KGaA and Sanofi. Carrefour also confirmed its recovery, as did Publicis and Coface. Industrial goods, insurance, media, and banks also made a positive contribution.
