## INVESTMENT POLICY

The management objective aims to achieve, based on a minimum investment term of five years, a performance greater than the Euro Stoxx index, net dividends reinvested.

## FUND MANAGERS COMMENT

There was some positive macroeconomic news in September, notably confirmation of European GDP growth at an annualised rate of more than 2%, as well as the announcement of a massive tax cut plan in the United States (both corporate and income tax). Against this backdrop, the Euro Stoxx gained 4,51% over the month. The fund underperformed slightly with a rise of 4,32%. Some cyclical sectors such as automotive, construction, industrial goods and chemicals outperformed, while real estate, agri-business and telecoms remained stable over the month. The fund was hurt by its exposure to Heineken, Enagas and Telenet, as well as by the absence of BASF and Airbus. On the other hand, it benefited from the good performance of Alstom, driven by the merger with Siemens' rail operations, from the rebounds of Rexel and Coface, the rise staged by Continental, as well as the lack of exposure to utility services.
