#### FUND MANAGERS COMMENT

In October, the prospect of a no-deal Brexit almost faded away while a trade agreement between the United States and China appeared to be moving forward. Investors' risk appetite therefore increased. In Europe, long-term interest rates tightened to some extent despite Mario Draghi's last stand at his last meeting as ECB president, while equity markets were on the rise. The Bund's yield fell from -0,60% to -0,40% and the Euro Stoxx gained 1,25% to end the month very close to its highest level of the year, despite having been hurt on October 30th by Banco Santander's earnings release, which raised concerns over the ongoing changes in European banking regulations, still as hostile, dilutive and harmful. On that day, the fund lost a large part of the outperformance achieved during the month but still ended the month of October at 8 small basis points above the index, at +1,32%, driven by technology and industry as well as by the absence of oil and utilities. It was negatively affected by the underperformances of Publicis, Anheuser Busch, Carrefour and Heineken, but benefited from the good performances of SAP, Ryanair, Rexel and UCB.
