## INVESTMENT POLICY

The management objective aims to achieve, based on a minimum investment term of five years, a performance greater than the Euro Stoxx index, net dividends reinvested.

## FUND MANAGERS COMMENT

With the new restrictive measures introduced in Europe at the start of 2021, the market slowed in January. The Euro Stoxx ended the first month of the year with a loss of 1,37%, even though the first sessions were upbeat due to enthusiasm over the imminent arrival of vaccines. The situation in Europe thwarted this initial optimism, without however affecting all global markets as oil rose by nearly 10% over the month and the US 10-year yield was up 15bp, to cite two examples. The fund lost 1,78% (IC share), hurt by detrimental stock picks in healthcare, technology and retail and despite a positive contribution from commodities and financial services. JDE Peet's continued to underperform, as did EssilorLuxottica and Total, in which the fund invested during the month. Atos was adversely affected by its intention to buy its US competitor DXC. On the other hand, ASML rose to a new high, buoyed by its earnings release. Saint-Gobain also performed well on the back of good results. Michelin, Publicis and Aperam also made a positive contribution.
