MANAGEMENT

INVESTMENT POLICY

The fund's investment objective is to outperform the Barclays Global Contingent Capital € Hedged index for units PVC EUR, PVD EUR, RVC EUR, RVD EUR, SC EUR and TVD EUR, Barclays Global Contingent Capital Hedged USD for unit PVC H-USD and Barclays Global Contingent Capital Hedged CHF for PVC H-CHF.

To attain this objective, the strategy will rely on an active management of the portfolio mainly invested in subordinated securities (this type of debt is more risky than Senior Unsecured or Securitised debts), or any securities, not considered as common stocks, issued by European financial institutions. The investment process combine both a Top-down approach (strategic and geographical allocation approach which takes into consideration the macro and sectorial environments) and a Bottom-up approach (stock-picking based on fundamental analysis of the issuer and its securities) and then integrating the regulatory environment in which this asset class evolves. The modified duration will be managed in a 0 to 8 range. The fund only invests in bonds or securities issued by companies having their head office in an OECD member country and/or in issues or securities listed in a stock market of one of these countries. The FCP invests only in obligations negotiated in Euro, USD or Sterling.

FUND MANAGER'S COMMENT - François Lavier - Alexis Lautrette

The net asset value of Lazard Capital Fi fell by -0,3% over the month versus +0,4% for the Barclays Global Contingent Capital € Hedged Index.

AT1s in OAS tightened by -2 bps to 466 bps according to Bloomberg Barclays Global Index.

The German government bond yield curve flattened during the month, with the 10-year yield down -10 bps to -0,6%, the 5-year yield down -11 bps to -0,8%, while the 2-year yield down -9 bps to -0,8%.

Lazard Capital Fi has a 260-day volatility of 16,7% vs 16,1% for the Barclays Global Contingent Capital € Hedged Index.

The first banks' publications for Q3 are better than expected in general with two main trends: a very sharp decline in the cost of risk and well below consensus expectations for 3Q20 and on which managers expect an improvement in 2021 and CET1 capital ratios still rising QoQ. These excellent results will not have succeeded to offset the bad news on the health front, however with limited reaction to announcements of new light-lockdowns in Europe. On the central bank side, no news yet, but Ms. Lagarde has promised to act at the next monetary policy meeting in December.

The M&A theme continues to drive the market, with rumors in Italy between Banco BPM and Crédit Agricole as well as between Unicredit and Monte dei Paschi (with probably a capital increase that could go up to 2.5 billion). In Spain, merger talks between Liberbank and Unicaja are continuing while rumors of a merger between BBVA, Kuxtabank and Sabadell have emerged.

The EBA has published its guidelines on Legacy instruments and their ability to be included or not in the capital structure of banks. The central recommendation is as follows: call / reimburse or modify the terms and conditions, which has led to a positive reaction in the Legacy market, also already well oriented this month with the Rabobank tender operation on a legacy Tier 1.

AIB and Barclays have exercised the call of the last two AT1s with a call date in 2020, so there have been in the end only 3 "non-calls" out of around 20 bonds in 2020, despite the uncertainty and the difficulties related to Covid.

The primary market was calm with Caixabank, Crédit Agricole and Nykredit in AT1, the insurer Unipol in RT1, Santander and Banque Postale in Tier 2.

The primary market, excluding covered bonds, totaled 18 bn€ in gross issuance according to Barclays, with net bank issuance totaling +8 bn€ over the months. Since the beginning of the year, gross issuance has represented 225 bn€ and net issuance +66 bn€.

In Lazard Capital Fi, the most important contributors to the performance have been Legacy with +0,3%, AT1 and RT1 with -0,2% and banks Tier 2 with -0,3%. By country, the most important contributions came from UK (+0,2%), Germany (+0,2%) and Belgium (+0,1%). By issuer, Deutsche Bank with +0,2% and BNP Paribas with +0,2% are the most important contributions.

PERFORMANCE

HISTORICAL PERFORMANCE
