MANAGEMENT

Sustainability Rating

Overall

INVESTMENT POLICY

The fund seeks to outperform the Thomson Reuters Convertible Global Focus Euro Hedged in the mid-term. To attain this objective, the strategy will rely on an active management of interest, currency and credit risks and on our stock-picking approach.

The portfolio is mainly invested in convertible bonds, exchangeable bonds, bonds with equity warrants, perpetual preferred shares, corporate and financials traded debt, sovereign debt, French law money-market and bond funds (whether or not UCITS-compliant) invested in bonds and other types of Euro-denominated debt (10% maximum), and shares resulting from a conversion of the above-defined instrument types (10% maximum). All returns are net of fees and total return.

FUND MANAGERS' COMMENT - Arnaud BRILLOIS

During the month of November 2018, Lazard Convertible Global ID H-EUR Fund returned +0.04% versus +0.34% for its benchmark (Thomson Reuters Convertible Global Focus Euro Hedged). The fund's equity sensitivity decreased during the period, currently standing at 48.3%, while the benchmark's equity sensitivity increased, now standing at 41.5%. Sensitivity to interest rates is unchanged over the month but still below the benchmark, standing at 1.20 versus 2.22. Our equity exposures were neutral to the relative performance during the period as the US market's positive performance was offset by the European's underperformance. Our shorter duration compared to the benchmark marginally detracted to the relative performance, 5-year EUR and USD swap rates decreased during the period. Consumer non-cyclicals and technology are the best relative contributors this month while consumer cyclical and real estate underperformed. We initiated two new positions, Wright Medical Group 2023 producing orthopedic implants and BASF 2023 in chemicals. We reduced our weight on Unicharm 2020 to mitigate liquidity risk as the convertible saw its outstanding amount reduced.
