MANAGEMENT

INVESTMENT POLICY

The fund seeks to outperform the Thomson Reuters Convertible Global Focus Index in euro in the mid-term. To attain this objective, the strategy will rely on an active management of interest, currency and credit risks and on our stock-picking approach.

The portfolio is mainly invested in convertible bonds, exchangeable bonds, bonds with equity warrants, perpetual preferred shares, corporate and financials traded debt, sovereign debt, French law money-market and bond funds (whether or not UCITS-compliant) invested in bonds and other types of Euro-denominated debt (10% maximum), and shares resulting from a conversion of the above-defined instrument types (10% maximum). All returns are net of fees and total return.

FUND MANAGERS' COMMENT - Arnaud BRILLOIS

During the month of December 2016, Lazard Convertible Global Fund returned +2.18% versus +1.32% for its benchmark (Thomson Reuters Global Focus Convertible in Euros). Fund's equity sensitivity is higher on the month at 58.5% and index equity sensitivity is higher at 45.5%. Modified duration is unchanged on the month and still shorter that the benchmark at 0.68 versus 2.03. Our equity overweight contributed positively to the relative performance (on the month, Stoxx600 ND in euro gains 5.75% and S&P500 in dollar gains 1.93%). Our shorter duration compared to the benchmark has been a positive contributor. Bond selection was a positive contributor this month. We sold Linkedin and half of Nvidia, we reinforced positions on Ingenico, Ubisoft and Rallye, and we initiated positions on Zillow and Technip. During the month, we have kept our overweight on USD against all currencies.
