INVESTMENT POLICY

The fund's target is to reach, over a recommended investment 5-year period, a greater return net of fees than the Thomson Reuters Global Focus Hedged (EUR) Convertible Bond Index in euros, hedged against a foreign exchange risk, the euro being the reference currency with reinvested net coupons. The stock returns may be adjusted by possible foreign exchange hedging costs.

FUND MANAGERS' COMMENT - Arnaud BRILLOIS

During the month of November 2018, Lazard Convertible Global Hedged - EUR Fund returned +0.04% versus +0.34% for its benchmark (Thomson Reuters Convertible Global Focus Euro Hedged). The fund's equity sensitivity decreased during the period, currently standing at 48.3%, while the benchmark's equity sensitivity increased, now standing at 41.5%. Sensitivity to interest rates is unchanged over the month but still below the benchmark, standing at 1.20 versus 2.22. Our equity exposures were neutral to the relative performance during the period as the US market's positive performance was offset by the European's underperformance. Our shorter duration compared to the benchmark marginally detracted to the relative performance, 5-year EUR and USD swap rates decreased during the period. Consumer non-cyclicals and technology are the best relative contributors this month while consumer cyclical and real estate underperformed. We initiated two new positions, Wright Medical Group 2023 producing orthopedic implants and BASF 2023 in chemicals. We reduced our weight on Unicharm 2020 to mitigate liquidity risk as the convertible saw its outstanding amount reduced.
