INVESTMENT POLICY

The fund aims to outperform, over a minimum recommended investment period of five years, shares of small-cap companies of Nordic countries represented by the MSCI Nordic Small Cap Index, calculated in euros with net dividends reinvested based on closing prices.

FUND MANAGERS COMMENT

After collapsing in March, European equity markets bounced back sharply in April, despite first earnings releases often combined with the withdrawal of annual targets, and WTI, the U.S. oil benchmark, plunging into negative price territory for the first time on record on April 20, reflecting the deep imbalance between supply and demand. Brent also lost another 30% over the period. But the Fed's generous announcements and the ECB's more accommodative stance, as well as the favorable evolution of the outbreak in Western countries, prevailed. In this context, Nordic stock markets rose more than the euro zone, and the Nordic small caps significantly outperformed the large caps. The fund outperformed the index, benefiting from the strength in Avanza (Online brokerage, Sweden), Coor (Facility services, Sweden), Stillfront (Online gaming, Sweden) and Nordic Semiconductor (Bluetooth low energy chips, Norway). It suffered though from the weakness in Kojamo (Real estate services, Finland), Attendo (Healthcare services, Sweden) and Otello (Technology, Norway). Over the course of the month, we have sold our shares in NNIT (IT Services, Denmark).
