INVESTMENT POLICY

The fund seeks to outperform the Thomson Reuters Convertible Europe index. To attain this objective, the strategy will rely on an active management of interest rate risk (active management of sensitivity), currency and credit risks (based on the securities rating) and on our stock-picking approach. Sensitivity will be managed on a scale of 0 to 7. Portfolio will be composed as follows: 1/ up to 110% maximum of fungible convertible bonds, exchangeable bonds, bonds with equity warrants, corporate and financials traded debt and sovereign debt. The fund will be able to invest in both investment grade and high yield convertible bonds; 2/ up to 10% maximum in French law money-market and bond funds (whether or not UCITS-compliant); 3/ up to 10% maximum in equities resulting from a conversion.
