INVESTMENT POLICY

Over a recommended investment horizon of 5 years minimum, the management aim is to outperform the Euro Stoxx index, net reinvested dividends.

FUND MANAGERS COMMENT

In March, the market shrugged off the new lockdown measures in Europe and the epidemic outbreaks in South America and India to focus only on the good news: effectiveness of the vaccination campaigns in the countries where they have been massively rolled out (United Kingdom and Israel), continued strong recovery in Asia, vast scale of stimulus plans in the United States and, to a lesser extent, in Europe. Buoyed by these prospects, which were accompanied by a lull in the bond markets, with yields rising only very slightly over the month, the Euro Stoxx rose sharply, by 6,61%. The fund outperformed with a rise of 7,64% (1 share) over the month. Its relative performance was hurt by the rises of Linde, Volkswagen and ASML (not held in the portfolio), but this was more than offset by the strong showing of commodities (ArcelorMittal, Outokompu, Aperam) and banks (Bank of Ireland, Société Générale).

Lazard Frères Gestion informs you that the management company has updated the provisions relating to the inclusion of environmental, social and governance (ESG) criteria in the KIIDs and prospectuses of its Funds in accordance with EU Regulation 2019/2088 on the publication of sustainability information in the financial services sector and with AMF Position-Recommendation 2020-03 on collective investments incorporating extra-financial approaches.

Performance fees	Nil
Current expenses	1,58%

*Risk scale : Derived from the historic volatility of the fund over a period of 5 years. The management company reserves the right to adjust the level of risk calculated according to the specific risk of the fund. This risk scale is supplied as a rough guide and may be modified without advance notice. Risk 1 does not mean a risk-free investment. This indicator may change over time.

CHANGE IN NET ASSET VALUE (NAV)

Past performance is not a guarantee of current or future performance and increases at the end of the recommended investment period.
