INVESTMENT POLICY

Over a recommended investment horizon of 5 years minimum, the management aim is to outperform the Euro Stoxx index, net reinvested dividends.

FUND MANAGERS COMMENT

The market dropped sharply in October, shaken by a raft of profit warnings, particularly in the automotive sector, as well as by concerns about the situation in Italy and consumption in China. The Euro Stoxx lost 6,62% over the month, hurt in the first fortnight by a decline in high-multiple stocks, notably luxury and technology, then by a number of publications. The fund suffered during the period, affected by the poor performance of the commodities sector and by some disappointing results. It ended the month down 9,61%, compared with a decline of 6,62% for its benchmark index. Atos, Outokumpu and Aperam released disappointing third quarter results and reacted very badly. Despite satisfactory earnings releases, Covestro and ArcelorMittal were down over the month. More generally, commodities and industrial groups made a negative contribution. Telecoms (Orange, Telefónica) made a positive contribution in October on good earnings releases, as did ABFoods, Cap Gemini and Kion.
