FUND MANAGERS COMMENT

Sadly, new restrictive measures had to be implemented almost everywhere in Europe, even to the point of a virtually total lockdown, as was the case in France with some other countries following suit. The resumption of the epidemic in the United States was also a source of concern for the markets, but it was the prospect of the election of poll favourite Joe Biden that dominated the behaviour of the US bond market, where yields tightened, while in Europe the Bund yield fell from -0,52% to -0,62%. The Euro Stoxx fell by 5,73%. Against this backdrop, the fund lost 5,85% (I unit), hurt in particular by its exposure to real estate (declines by Merlin, Metrovacesa and Instone) and industrial goods (Palfinger and Spie). On the other hand, it benefited from good stock picks in banking and financial services (Bank of Ireland, Société Générale) and from its lack of exposure to SAP.
