INVESTMENT POLICY

The objective of the fund is to outperform, net of fees and over the minimum recommended investment period of five years, the Eurozone small and mid cap universe as represented by the EMIX Smaller Euroland index calculated on a total return basis.

FUND MANAGERS COMMENT

July saw no clear direction for equity markets. The Euro Stoxx ended the month up 0.1%, while small caps fared slightly worse with the Emix Smaller Euroland falling by 0.5% over the same period. The SICAV registered a decline of 1.6% for the month, this performance largely reflecting negative share price reactions following the first half publications of some industrial names in the portfolio, including Manitou (-21%), Washtec (-20%) and Cargotec (-19%). In particular, order trends and outlook statements were less bullish than market expectations. To a lesser degree, performance was also impacted by Technotrans (-11%) and Drägerwerk (-8%). Conversely, strong publications triggered positive share price reactions for Sopra Steria (+16%), Nexity (+14%) and Ipsos (+11%). Vossloh (+10%) and Zumtobel (+9%) also contributed positively to performance. Portfolio movements during the month included adding to the position in F.I.L.A. while reducing the weightings in Sopra Steria, Cargotec, Altran, Somfy and Nexity.
