INVESTMENT POLICY

The management objective aims to achieve a performance greater than the Stoxx 600 index.

FUND MANAGERS COMMENT

The market dropped sharply in October, shaken by a raft of profit warnings, particularly in the automotive sector, as well as by concerns about the situation in Italy and consumption in China. The Stoxx 600 lost 5,53% over the month, hurt in the first fortnight by a decline in high-multiple stocks, notably luxury and technology, then by a number of earnings releases. The fund was able to make the most of this rotation at the beginning of the period but was hurt by some disappointing results that led to a highly volatile relative performance. It ended this very downbeat month with a significant underperformance, posting a decline of 8,29%. Aperam and WPP released disappointing third quarter results and reacted very badly. Danske Bank is still suffering from the lack of transparency surrounding its business in Estonia. Despite a satisfactory earnings release, ArcelorMittal was down over the month. More generally, retail, commodities and media made a negative contribution. By contrast, healthcare extended the sharp rise that started back in the spring, with satisfactory contributions from Merck KGaA and AstraZeneca. Carrefour also confirmed its recovery. It is worth noting the major profit warning issued by Spanish retailer Dia, which had a very negative impact on the fund's performance. The stock is currently being monitored closely and we have not added to our holding in the fund
