FUND MANAGERS COMMENT

In October, the prospect of a no-deal Brexit almost faded away while a trade agreement between the United States and China appeared to be moving forward. Investors' risk appetite therefore increased. In Europe, long-term interest rates tightened to some extent despite Mario Draghi's last stand at his last meeting as ECB president, while equity markets were on the rise. The Bund's yield rose from -0,60% to -0,40% and the Euro Stoxx gained 1% to end the month very close to its highest level of the year, despite having been hurt on October 30th by Banco Santander's earnings release, which raised concerns over the ongoing changes in European banking regulations, still as hostile, dilutive and harmful. On that day, the fund lost a large part of the outperformance achieved during the month and ended October at 8 basis points below the index, at +0,96%. It was hurt by a negative stock-picking effect in media, agri-food and banks. Looking at the detail, it was negatively affected by the underperformances of Publicis, Anheuser-Busch, Heineken, Cap Gemini and Imerys, but benefited from the good performances of Rexel, Air France, Daimler, Prudential, UCB, SKF and Ingenico
