INVESTMENT POLICY

The management objective aims to achieve a performance greater than the Stoxx 600 index.

FUND MANAGERS COMMENT

March was marked by the very dovish speeches of the European Central Bank followed by the Fed. In-between their respective statements, a number of disappointing confidence indicators, particularly in Europe, convinced investors that rates would remain very low for a very long time. The TBond yield fell from 2,75% to 2,40% over the month, while the German 10-year yield fell below the 0% mark on March 21st and remained negative until the end of the month. Against this backdrop, risk aversion in the equity markets went back on the rise and while the Stoxx 600 fluctuated only slightly (+2,06%), this actually masked a very high sector and thematic rotation in favour of the stocks least sensitive to the economic situation. The fund, with a decline of 0,61% (A share) over the month, was hard hit by this situation, negatively impacted by commodities and automotive in particular, with the declines of Imerys, Aperam and ArcelorMittal, as well as Autoliv and Air France, which was hurt by the Dutch State's acquisition of a stake in its capital. Carrefour, Rexel and Spectris also made a negative contribution to performance. Conversely, the fund benefited from strong stock picks in chemicals, technology, healthcare and insurance, with rises by Merck KGaA and Ingenico, as well as Anheuser-Busch InBev and Novo Nordisk. The fund also benefited from the absence of Bayer
