Date of production of the Key Information Document:	25/03/2026

WHAT IS THIS PRODUCT?

Type: Organisme de Placement Collectif en Valeurs Mobilières (OPCVM), Société d'Investissement à Capital Variable (SICAV)

Term: The UCI's term is 99 years from 01/07/2020, except in the event that the Fund is dissolved before the end of the term or extended pursuant to these regulations.

Objectives:

The investment objective is to achieve, by applying a Socially Responsible Investment (SRI) management approach, over the recommended investment horizon of 3 years, a return (net of charges) above the following simple benchmark: €STR Capitalisé + 1,50%. The benchmark is expressed in EUR.

To achieve this investment objective, the strategy involves dynamic management of interest rate risk, credit risk, and currency risk, by investing up to a maximum of 100% of the net assets in risky debt issued by governments, companies and institutions and financial structures rated in the speculative/High Yield category by the rating agencies or equivalent based on the management company's analysis. A maximum of 40% of the net assets may be invested in securities rated Investment Grade or equivalent based on the management company's analysis. The manager may invest up to a maximum of 10% of the net assets in unrated securities.

Interest rate risk will be managed independently within a sensitivity range of -1 to 3.

To build the portfolio, the manager conducts his own analysis of euro-denominated bonds and negotiable debt securities, of any subordination rank, at fixed, variable or indexed rates, issued by companies, financial institutions and States. The bonds will have a maximum maturity of 5 years (maturity date or call date) and the portfolio's average duration will be around 2.

The Fund is invested as follows:

- up to a maximum of 100% of the net assets in bonds and negotiable debt securities denominated in euros and/or any other currency;
- up to a maximum of 10% of the net assets in UCITS and French or foreign AIF that comply with the four criteria set out in Article R. 214-13 of the French monetary and financial code (Code monétaire et financier) and classified as money market with a standard variable net asset value, money market with a short-term variable net asset value, or bond funds. These UCIs may be managed by the management company;
- up to a maximum of 10% of the net assets in convertible bonds;
- up to a maximum of 50% of net assets in perpetual subordinated debt, including a maximum of 30% of net assets in contingent convertible bonds (CoCos);
- up to a maximum of 5% of the net assets in preference shares;
- up to a maximum of 5% of the net assets in ordinary shares.

As an exception to the 5%-10%-40% ratios, the management team may invest more than 35% of the UCI's net assets in securities guaranteed by an EEA Member State or the United States.

The Subfund promotes environmental and/or social characteristics as defined by Article 8 of Regulation (EU) 2019/2088, known as "SFDR". SRI analyst-managers shall research portfolio companies on the basis of extra-financial criteria. Analyst-managers shall ensure that the ESG rating is kept higher, on a long-term basis, than the average rating of the composite index consisting 30% of the ICE ER01 and 70% of the ICE H1EC after removing the 25%-lowest rated companies by 01/01/2025 and the 30%-lowest rated companies by 01/01/2026. The methodology for ESG coverage of issuers is detailed in the prospectus.

The Sub-Fund will be exposed to emerging countries up to a maximum of 10% of the net assets.

Total exposure to equity risk may not exceed 10% of the net assets.

The Sub-Fund may use interest rate and currency futures, interest rate and currency options, interest rate and currency swaps, currency forwards and credit derivatives, traded on regulated, organised and/or over-the-counter markets, up to a maximum of one times the net assets, to hedge and/or expose the Sub-Fund to interest rate, currency, credit and volatility risks.

Exchange rate risk will be hedged so that exposure thereto shall not exceed 10% of the assets. The Sub-Fund may invest a maximum of 100% of the net assets in securities with embedded derivatives.

Further information on the investment strategy can be found in the Sub-fund's prospectus.

Allocation of distributable income:

- Allocation of net revenue: Accumulation
- Allocation of net realised capital gains: Accumulation

Right of redemption: Orders are executed as indicated in the table below

Business day	Day on which NAV is set (d)	The business day following the valuation day (D+1)	Two business days following the valuation day (D+2)
Daily order reception and Daily centralisation of redemption orders before 12:00 p.m. (Paris time)	Order executed by the latest on d	Publication of the net asset value	Settlement of redemptions

Targeted retail investors: This product may be suitable for retail investors with an intermediate level of knowledge of financial markets and products who seek international bonds and other debt securities exposure and who accept the risk of losing part of the invested capital.

The Sub-fund may not be offered or sold in the United States. For further information, please refer to section "11. Eligible subscribers and typical investor profile" in the prospectus.

Recommendation: This Sub-fund may not be suitable for investors planning to withdraw their investment within 3 years

Name of custodian: CACEIS BANK

Where/how to obtain information on the UCI :

All other practical information on this product, including the latest unit price, the prospectus, the latest annual and periodic reports, the composition of assets and the standards of LAZARD FRERES GESTION SAS with regard to the exercise of voting rights, as well as the report on the exercise of voting rights, will be sent out within eight working days upon written request to LAZARD FRERES GESTION SAS - 25, rue de Courcelles 75008 Paris France.

WHAT ARE THE RISKS AND WHAT'S IN IT FOR ME?

Risk indicator:

The risk indicator assumes that you keep the product for 3 years. The actual risk may be very different if you opt to exit before the end of the recommended holding period, and you may get less in return.

Other sizeable risks not taken into account in the indicator:

Recommended holding period:
3 years

- Credit Risk
- Risks associated with derivatives

The synthetic risk indicator is used to assess the risk level of this product compared with others. It indicates the probability that this product will incur losses in the event of market movements or if we are unable to pay you. We have classified this product in the risk class 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity LAZARD FRERES GESTION SAS to pay you.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios:

The figures shown include all costs of the product itself, but not necessarily all fees due to your advisor or distributor. These figures do not take into account your personal tax situation, which may also affect the amounts you will receive.

What you get from this product depends on future market performance. Future market developments are uncertain and cannot be accurately predicted. The unfavourable, intermediate and favourable scenarios presented represent examples using best and worst case performance, as well as the average performance of the product and of a benchmark index over the past 10 years. The scenarios presented represent examples based on past performance and certain assumptions. Markets could evolve very differently in the future.

Recommended holding period: 3 years Investment example: 10,000 €			If you exit after 1 year	If you exit after 3 years
Scenarios				
Minimum	There is no guaranteed minimum return. You could lose all or part of your investment.			
Pressure	What you could get after deducting costs		7,920 €	8,370 €
	Average annual return		-20.8%	-5.8%
Unfavourable	What you could get after deducting costs		9,200 €	9,480 €
	Average annual return		-8.0%	-1.8%
Intermediate	What you could get after deducting costs		9,730 €	10,350 €
	Average annual return		-2.7%	1.2%
Favourable	What you could get after deducting costs		10,590 €	11,760 €
	Average annual return		5.9%	5.6%

The stress scenario shows what you could get in extreme market situations.

Unfavourable scenario: This type of scenario occurred for an investment between 31/03/2017 - 31/03/2020

Intermediate scenario: This type of scenario occurred for an investment between 28/06/2021 - 28/06/2024

Favourable scenario: This type of scenario occurred for an investment between 31/10/2022 - 31/10/2025

WHAT HAPPENS IF LAZARD FRERES GESTION SAS IS UNABLE TO MAKE THE PAYMENTS?

The product is a co-ownership of financial instruments and deposits separate from the portfolio management company. In the event of default by the latter, the assets of the product held by the custodian will not be affected. In the event of default by the custodian, the risk of financial loss to the product is mitigated by the legal segregation of the assets of the custodian from those of the product.

WHAT WILL THIS INVESTMENT COST ME?

The person who sells you this product or who gives you advice about it may ask you to pay additional costs. If so, this person will inform you about these costs and show you the impact of these costs on your investment.

Costs over time:

The tables show the amounts deducted from your investment to cover the different types of costs. These amounts depend on the amount you invest, how long you hold the product and the performance of the product. The amounts shown here are illustrations based on an example of an investment amount and different possible investment periods.

We have assumed:

- that in the first year you would get back the amount you invested (annual return of 0.0%)
- that for the remaining holding periods, the product evolves as indicated in the intermediate scenario
- that 10,000 EUR are invested

	If you exit after 1 year	If you exit after 3 years
Total costs	475 €	644 €
Impact of annual costs (*)	4.8%	2.2% every year

(*) It shows how costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is expected to be 3.4% before deduction of costs and 1.2% after that deduction.

Breakdown of costs:

One-off costs at entry or exit		If you exit after 1 year
Entry costs	4.00% of the amount invested. This is the maximum amount you could be required to pay. The person selling you the product will inform you of the actual costs.	Up to 400 €
Exit costs	We do not charge exit costs.	0 €
Recurring costs incurred each year		
Management fees and other administrative and operating costs	0.34% of the value of your investment per year. This estimate is based on actual costs over the past year.	33 €

Transaction costs	0.21% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on how much we buy and sell.	21 €
Incidental costs incurred under specific conditions		
Performance-related fees	20% of the Sub-fund's outperformance relative to the benchmark index, capped at 2% of the net assets Benchmark indicator: €STR Capitalisé + 1.50% 0.22%. The actual amount varies depending on the performance of your investment. The estimate given is based on the average deducted over the last 5 years. The performance fee is deducted even in the event of a negative performance of the Sub-fund. To find out more, please refer to the fees and commissions section of the prospectus of this Sub-fund.	22 €

HOW LONG DO I HAVE TO HOLD IT AND CAN I WITHDRAW MONEY EARLY?

Recommended holding period: 3 years

This product does not have a minimum holding period requirement. The recommended holding period (3 years) has been calculated to be consistent with the product's investment objective.

You may withdraw your investment before the end of the recommended holding period, without any charges or penalties under the conditions set out in the "Right of redemption" section. The risk profile of the product may be very different if you opt to exit before the end of the recommended holding period.

Your UCI has a redemption cap mechanism ("Gates"). Please refer to point 15 of the prospectus for further details on these arrangements. For the Sub-fund, the cap on redemptions may be applied by the management company when the threshold of 5% of net assets is reached.

HOW CAN I MAKE A CLAIM?
